CCI OFFICIAL EXAMINATION QUALIFICATION AND ADMISSION TO THE EXAMINATION (TRACK 2)

Associate Degree

Student Acknowledgement

All CURE students that meet the Center for Ultrasound Research and Education graduation requirements are eligible to apply to sit for a credentialing examination administered by the registry specific to the highest level of education attained.

A graduate of CURE who possesses an Associate Degree as the highest level of education obtained, immediately qualify for the American Registry of Radiologic Technologists (ARRT) General Sonography Exam (RTS), which qualifies you to perform all general ultrasound including Abdomen, OB, GYN, Thyroid, Breast, Scrotum, Prostate. Students must apply for the ARRT sonography examination within 3 years of graduation. ARRT will not accept applications from students who graduated more than 3 years prior to applying. Should the maximum time lapse, you will no longer qualify for this track. There is no guarantee that if the time lapses that there will be any other options to become registered as requirements are subject to change by the registry organizations at their discretion.

Option 1 Track #2: Students with an Associate Degree immediately qualify for the American Registry of Radiologic Technologists (ARRT) General Sonography Exam (RTS). The ARRT Registry qualifies students to become registered as a general ultrasound sonographer in the following specialties: Abdomen, OB, GYN, Thyroid, Breast, Scrotum, and Prostate. Students must apply for the ARRT sonography examination within 3 years of graduation. ARRT will not accept applications from students who graduated more than 3 years prior to applying. Should the maximum time lapse, students will no longer qualify for this track. There is no guarantee that if the time lapses that there will be any other options to become registered as requirements are subject to change at the registry organization's discretion.

Option 2 Track #2: THIS MUST BE DECIDED PRIOR TO GOING OUT ON EXTERNSHIP
Students who fulfill 800 externship hours in their relevant specialty during the program, immediately qualify to sit for the Cardiac Credentialing International (CCI) Registered Cardiac Sonographer (RCS) or Registered Vascular Specialist (RVS) specialty examinations upon graduation under prerequisite RCS5 or RVS5. The specialty will need to be chosen prior to being placed in any externship site(s) to ensure students meet the clinical requirements required by CCI.

Students who obtain credentials in Vascular (RVS) or Cardiac (RCS) through CCI or ARRT/RTS credentialling, qualify for the ARDMS specialty examinations under Prerequisite 5 by:

1. Taking and passing a registry exam through either ARRT or CCI.
2. Passing the Sonography Principles & Instrumentation (SPI) exam.

Students who successfully pass CURE's Ultrasound Physics course with a grade of "C" (2.0) or better, qualify to take the SPI examination while they are in the program.

In signing below, enrolling students understand that scheduling exams and all fees associated with registry applications and examinations are the sole responsibility of the student. Individual registry requirements are subject to change by each individual credentialing organization at their discretion. CURE will make sure students receive the most up to date information regarding the registry requirements related to their specified registry pathway.

I _____ have received disclosure materials related to the pathway I must take in order to sit for the ARRT or CCI registry examination that is based on my highest level of education which is An Associate Degree. I understand that while in school, I will learn several modalities in the DMS, VT, E program but understand that I will be placed at an externship site specifically to achieve ARRT's or CCI's minimum requirements regarding clinical hours in either Vascular or Cardiac.
