THE CURE CENTER
FOR ULTRASOUND RESEARCH & EDUCATION

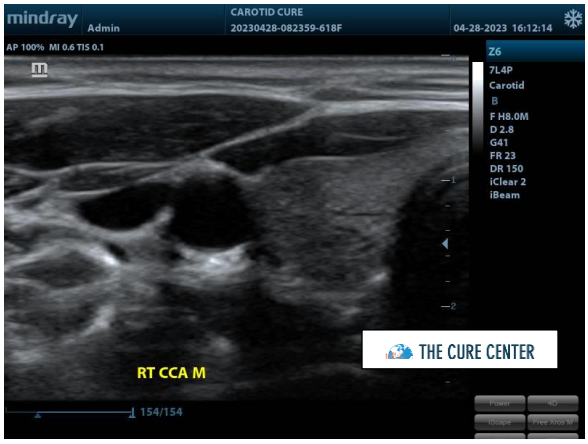

Carotid Duplex Protocol

Right Side:

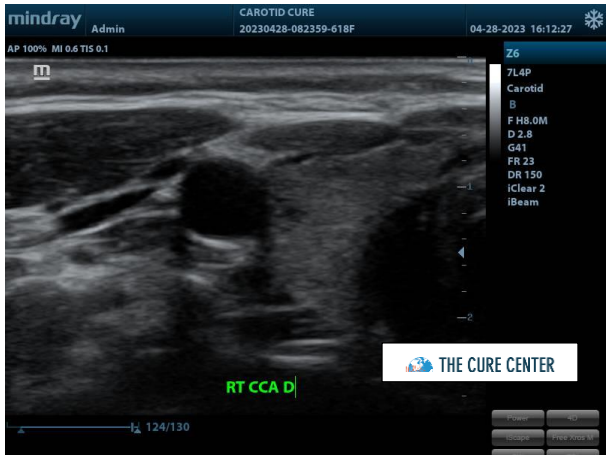

1. **SHORT AXIS: Common Carotid Artery Proximal**

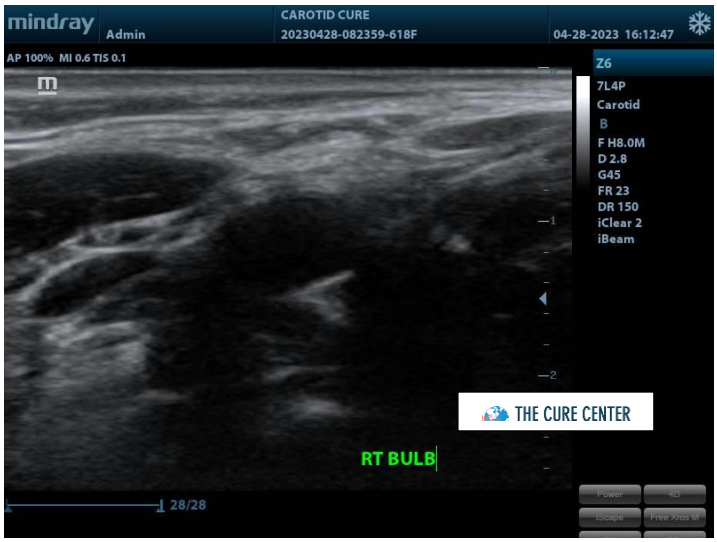

2. **SHORT AXIS: Common Carotid Artery Mid**

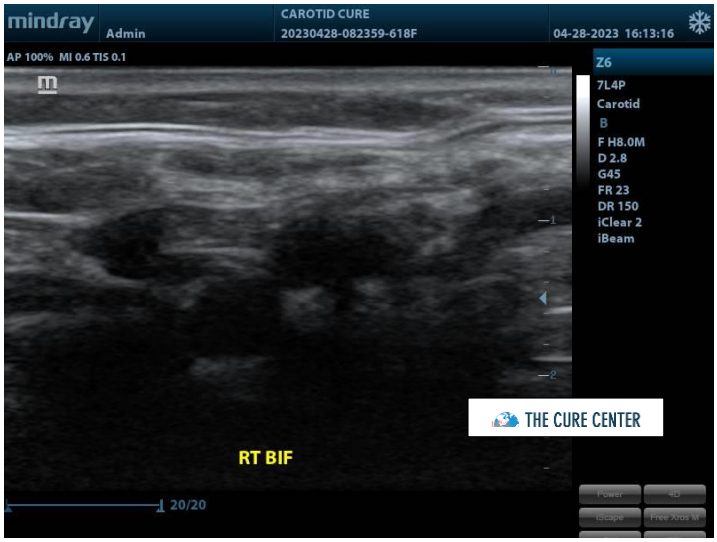

3. **SHORT AXIS: Common Carotid Artery Distal**

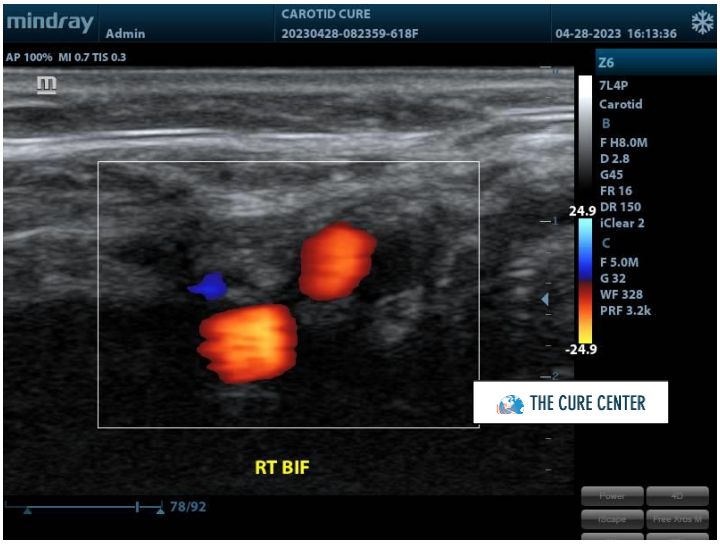

4. SHORT AXIS: Right Bulb

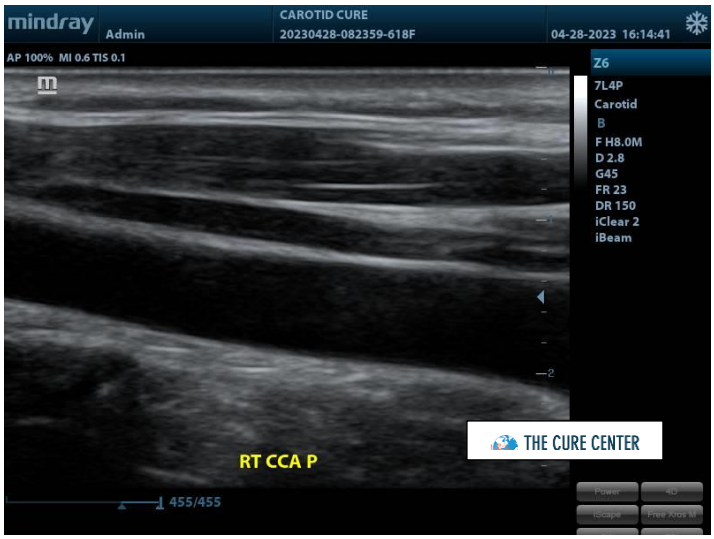

5. SHORT AXIS: Right Bifurcation

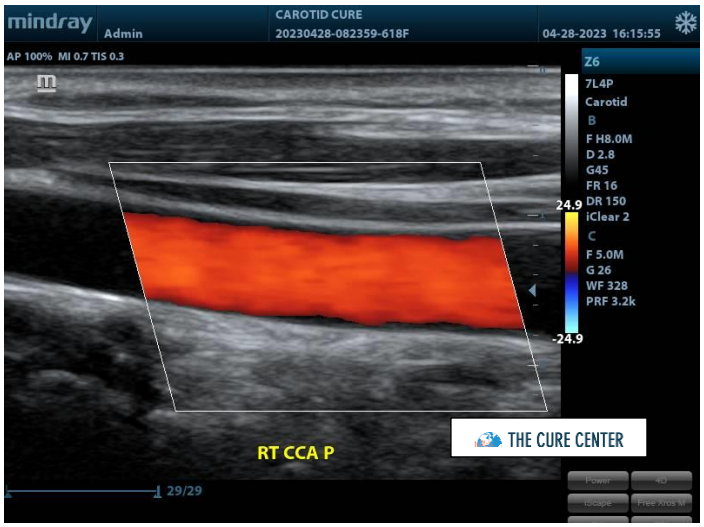

6. SHORT AXIS: Right Bifurcation/ Color

7. LONG AXIS: Common Carotid Artery Proximal

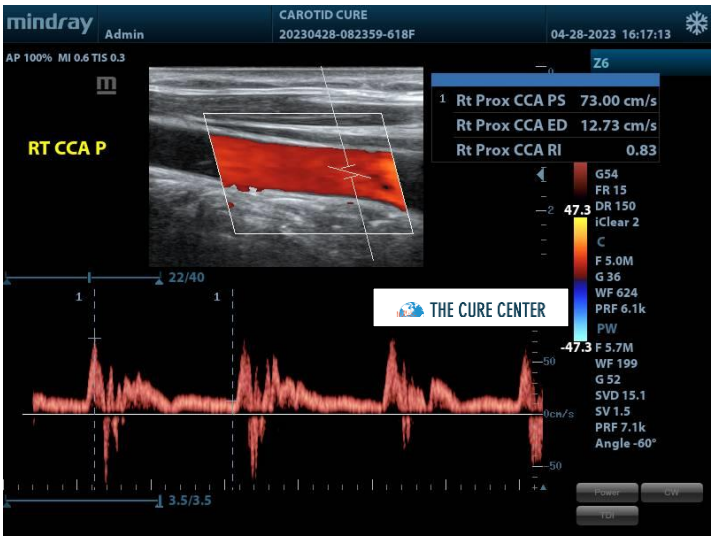

8. LONG AXIS: Common Carotid Artery Proximal

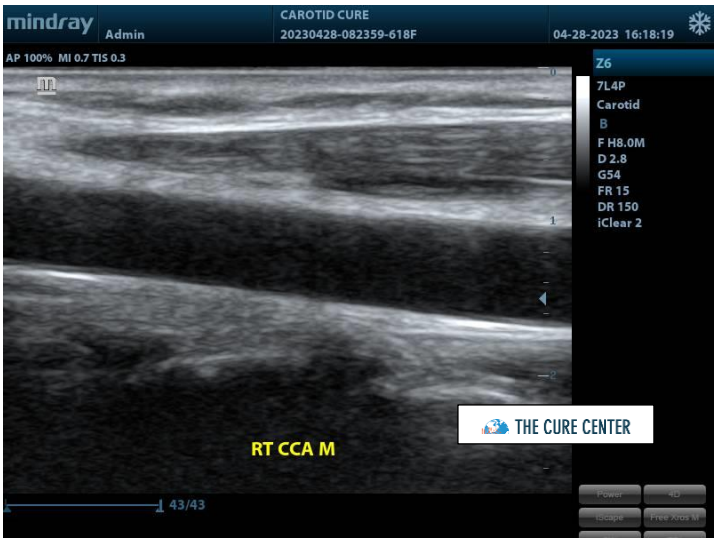

9. LONG AXIS: Common Carotid Artery Proximal

NOTE: Be sure to **angle** your sample gate to **<u>60 degrees</u>** for spectral Doppler images.

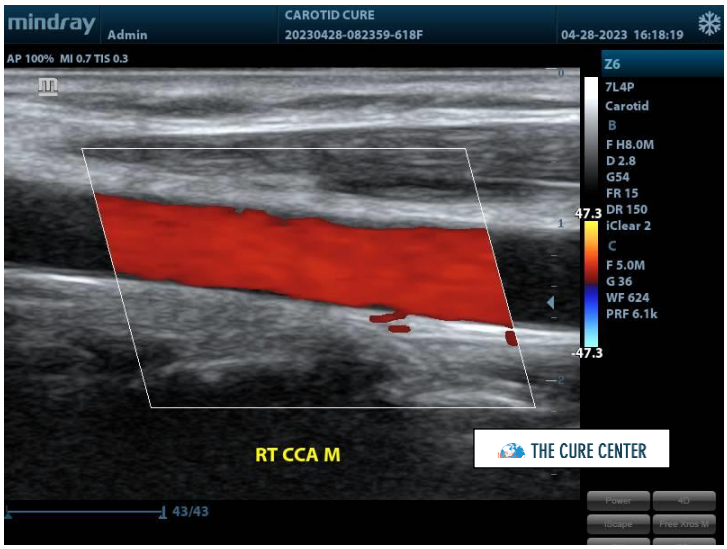

Remember to obtain measurements of the **PSV** and **EDV**, respectively.

10. LONG AXIS: Common Carotid Artery Mid

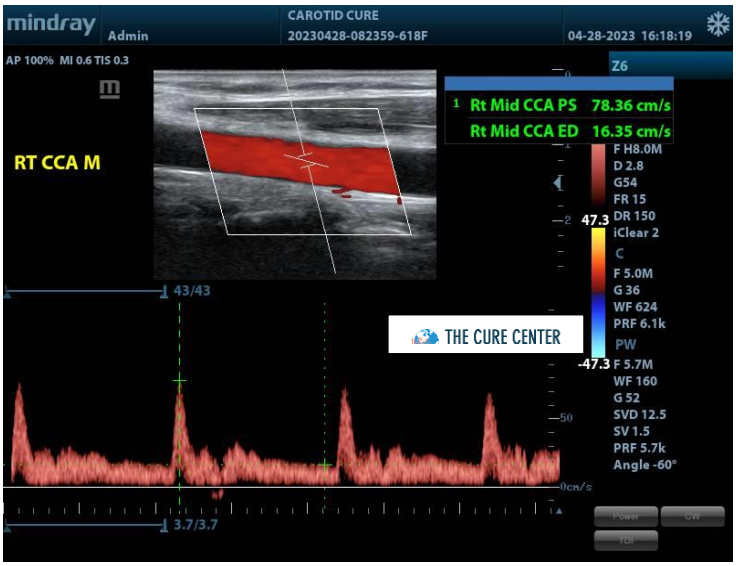

11. LONG AXIS: Common Carotid Artery Mid

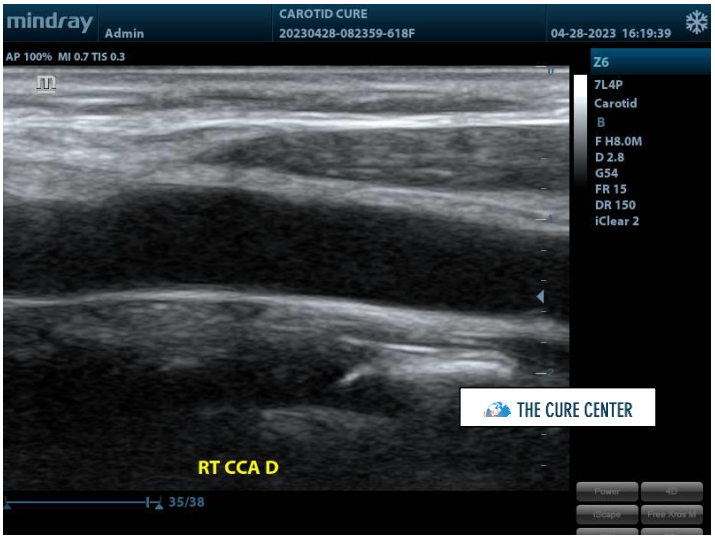

12. LONG AXIS: Common Carotid Artery Mid

NOTE: Be sure to **angle** your sample gate to **60 degrees** for spectral Doppler images.

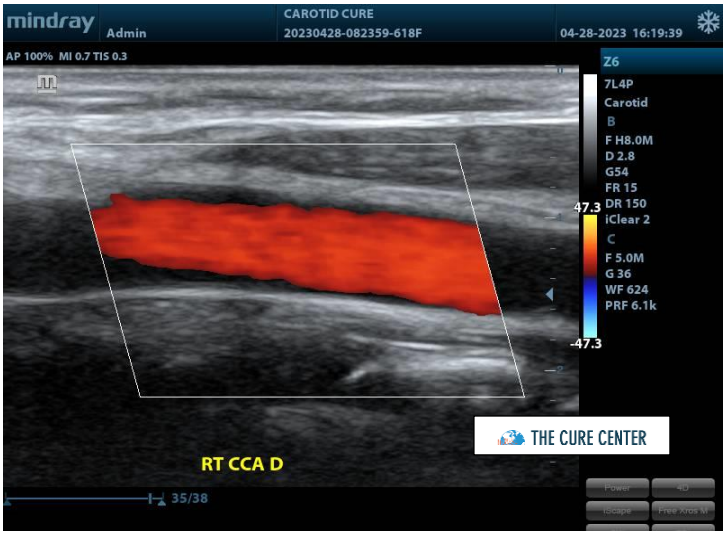

Remember to obtain measurements of the **PSV** and **ESV**, respectively.

13. LONG AXIS: Common Carotid Artery Distal

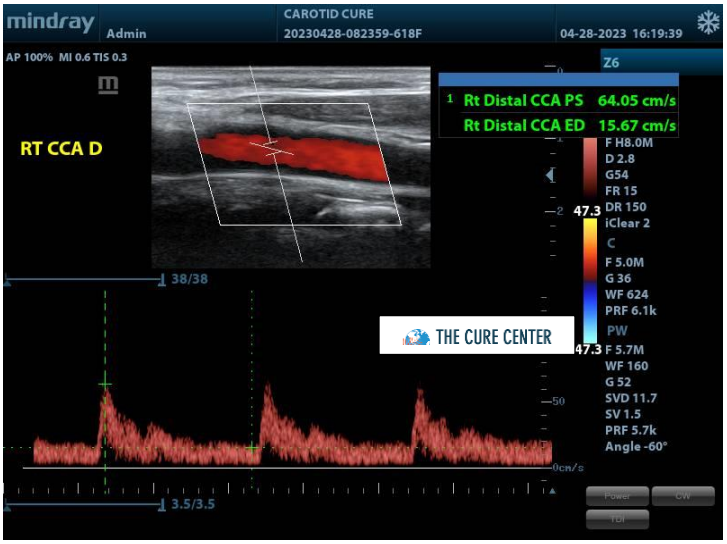

14. LONG AXIS: Common Carotid Artery Distal

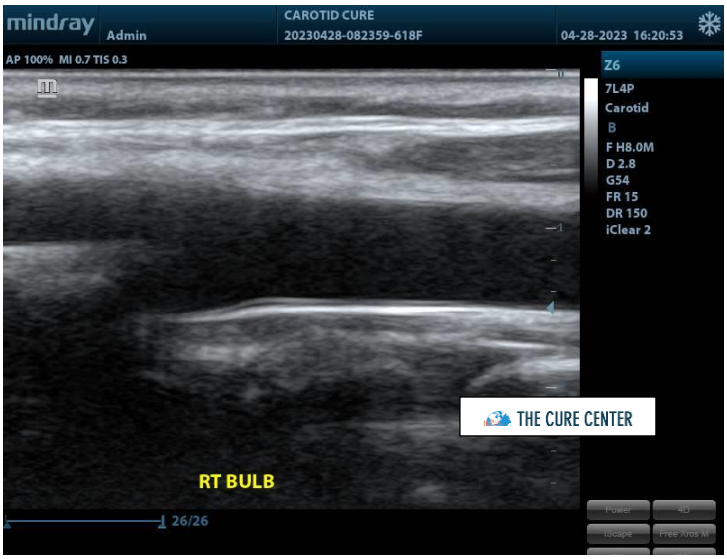

15. LONG AXIS: Common Carotid Artery Distal

NOTE: Be sure to **angle** your sample gate to **<u>60 degrees</u>** for spectral Doppler images.

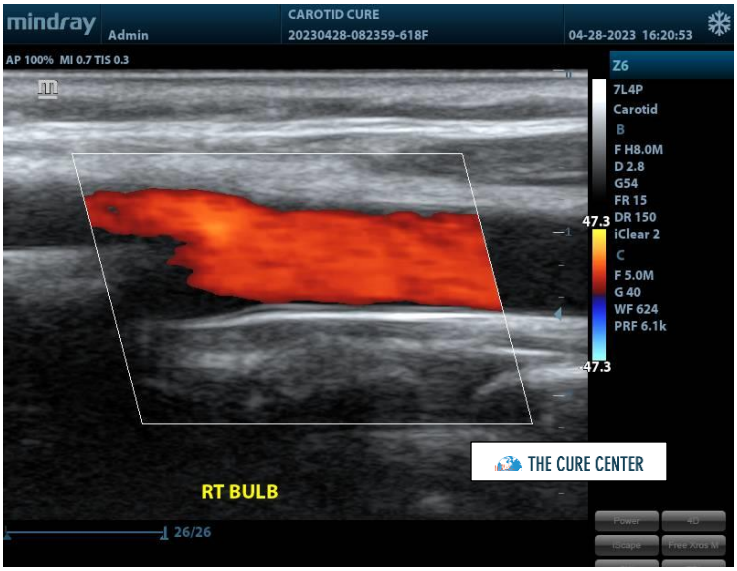

Remember to obtain measurements of the **PSV** and **ESV**, respectively.

16. LONG AXIS: Bulb Grayscale

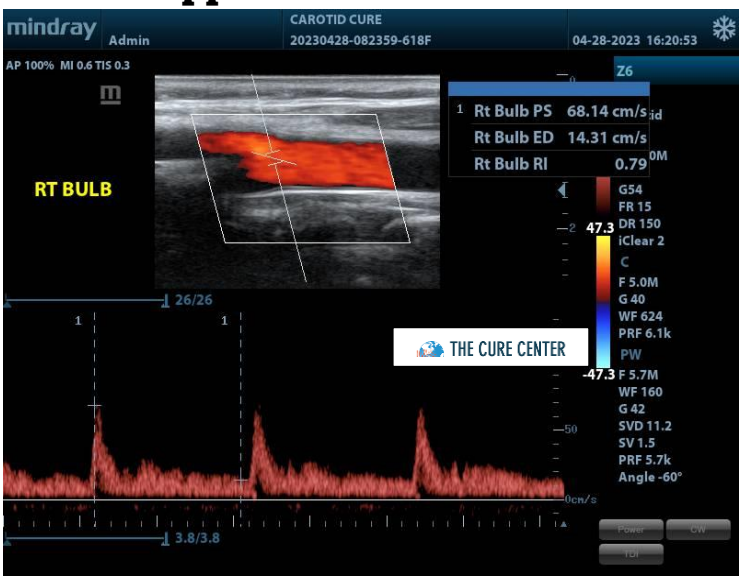

17. LONG AXIS: Bulb Color

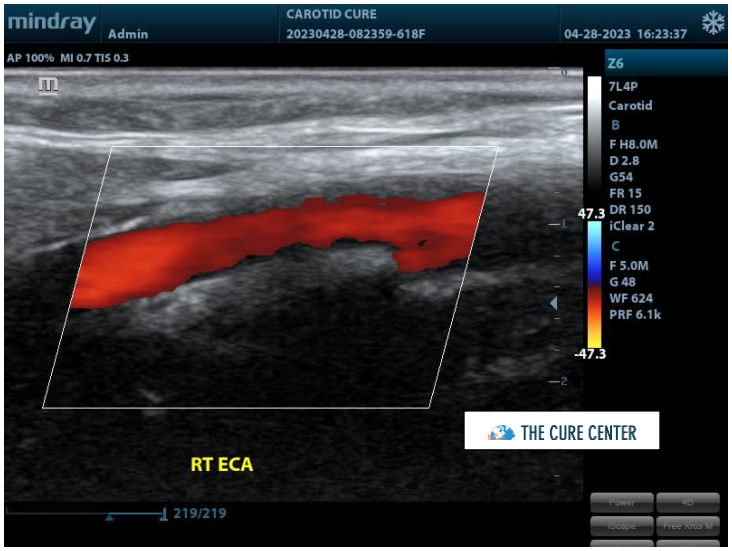

18. LONG AXIS: Bulb Doppler

NOTE: Be sure to **angle** your sample gate to **<u>60 degrees</u>** for spectral Doppler images.

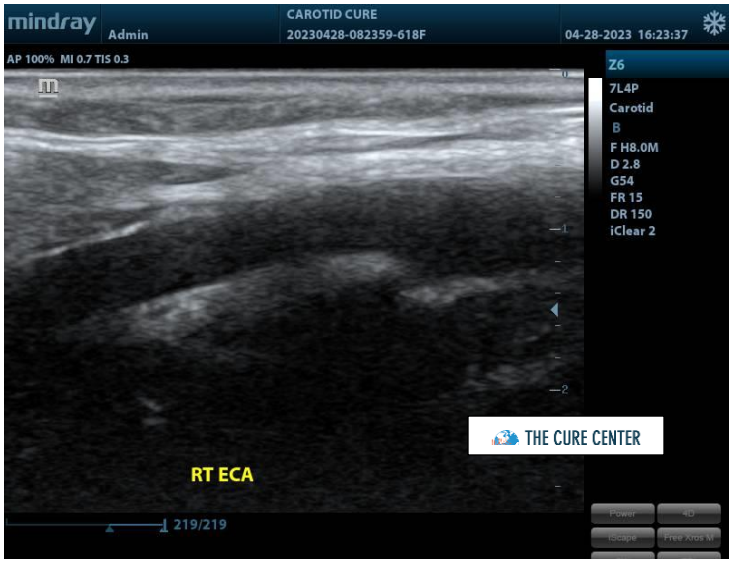

Remember to obtain measurements of the **PSV** and **ESV**, respectively.

19. LONG AXIS: External Carotid Artery

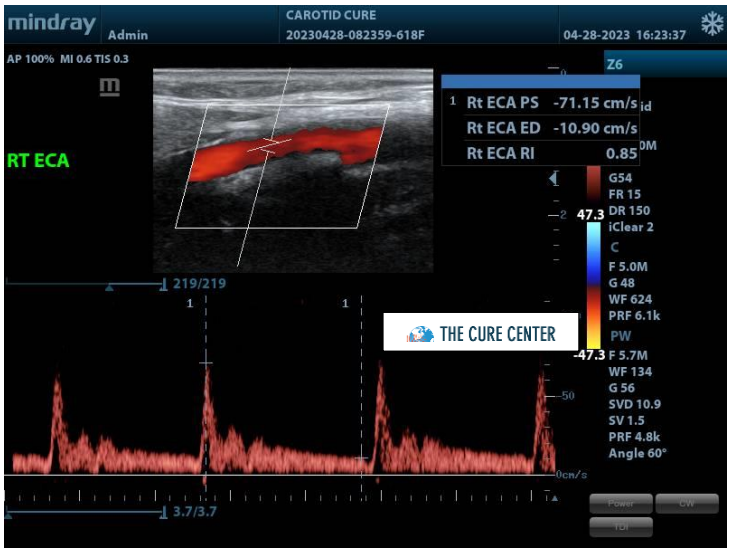

20. LONG AXIS: External Carotid Artery

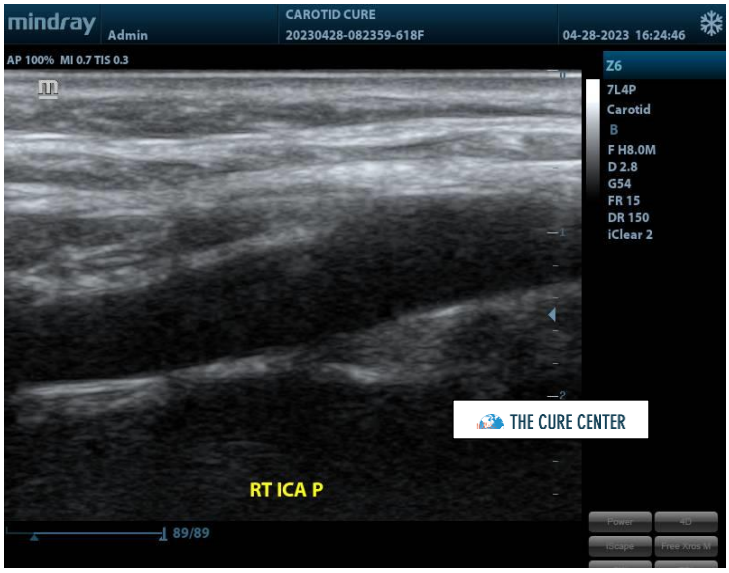

21. LONG AXIS: External Carotid Artery

NOTE: Be sure to **angle** your sample gate to **<u>60 degrees</u>** for spectral Doppler images.

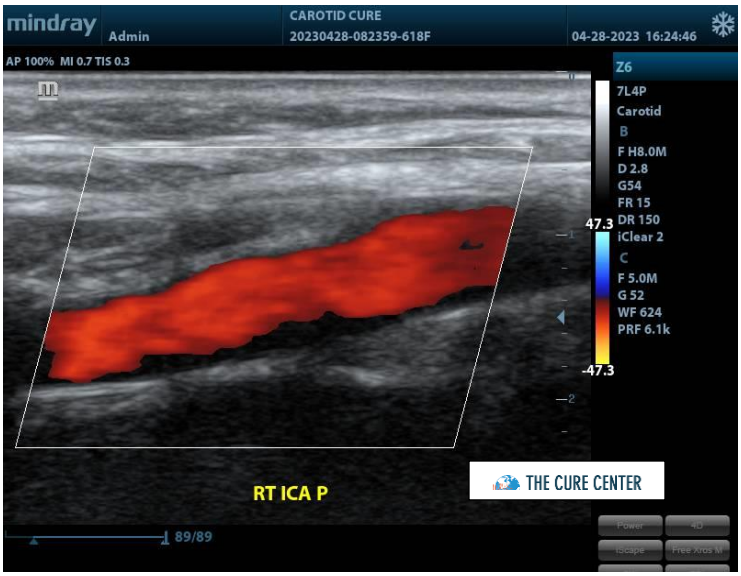

Remember to obtain measurements of the **PSV** and **ESV**, respectively.

22. LONG AXIS: Internal Carotid Artery Proximal

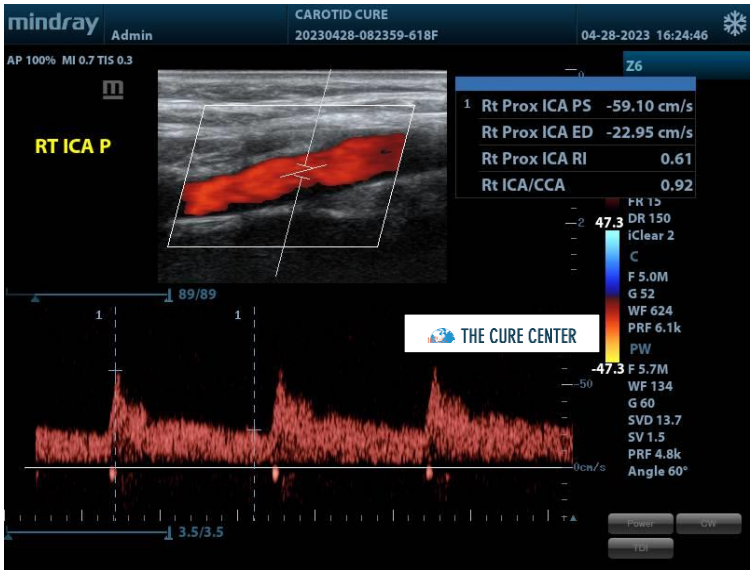

23. LONG AXIS: Internal Carotid Artery Proximal

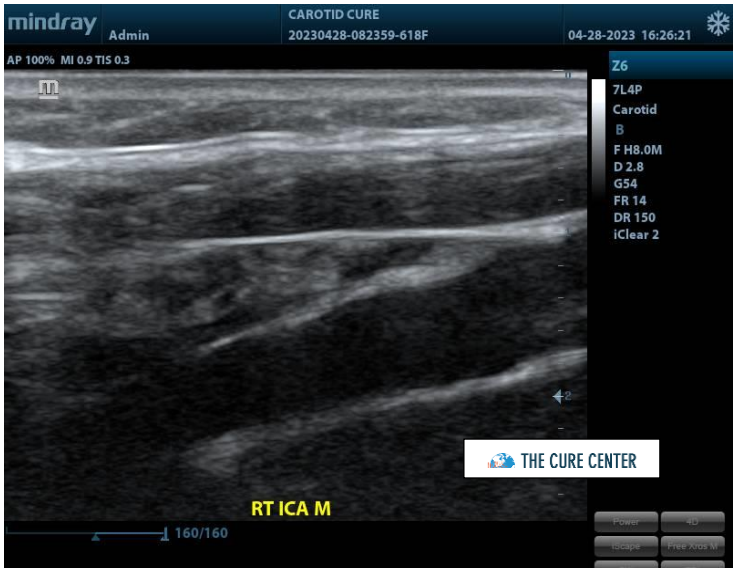

24. LONG AXIS: Internal Carotid Artery Proximal

NOTE: Be sure to **angle** your sample gate to **60 degrees** for spectral Doppler images.

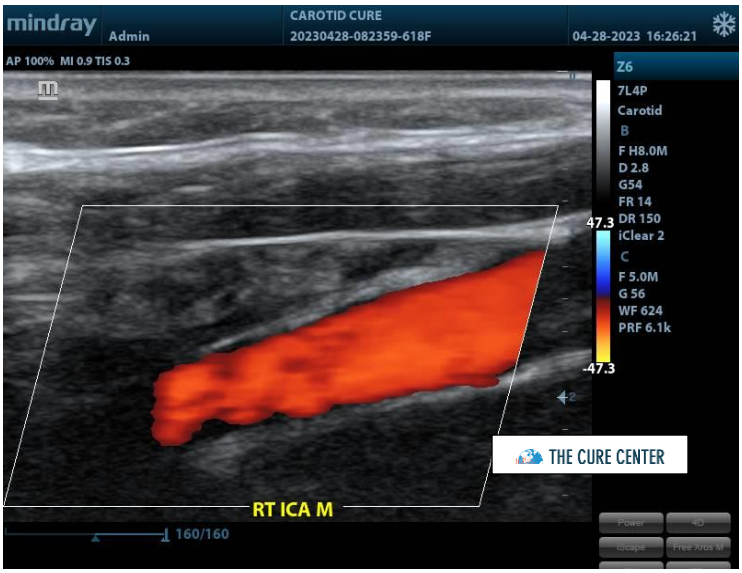

Remember to obtain measurements of the **PSV** and **ESV**, respectively.

25. LONG AXIS: Internal Carotid Artery Mid

26. LONG AXIS: Internal Carotid Artery Mid

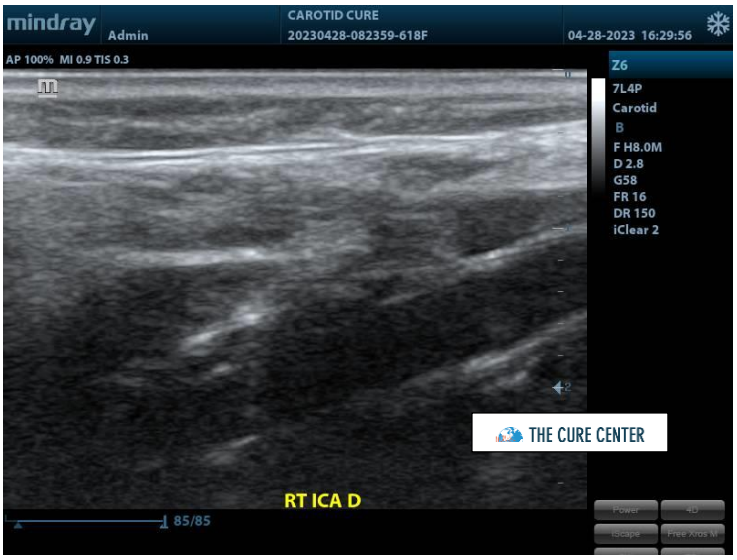

27. LONG AXIS: Internal Carotid Artery Mid

NOTE: Be sure to **angle** your sample gate to **60 degrees** for spectral Doppler images.

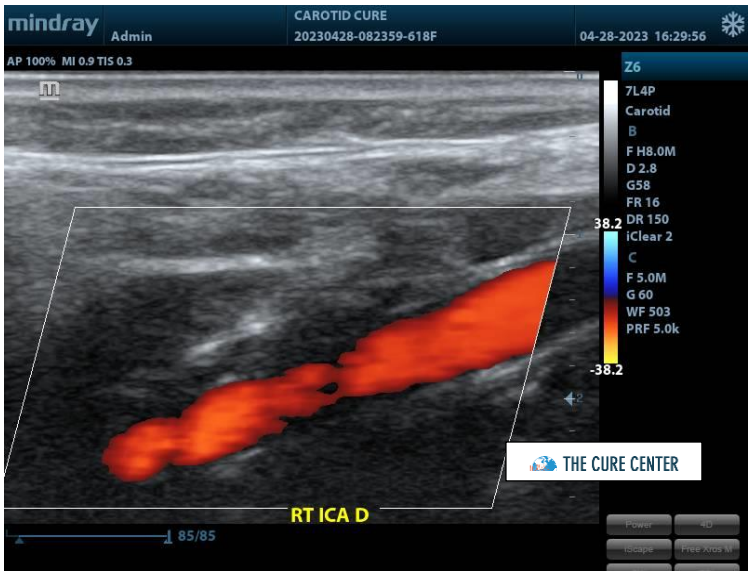

Remember to obtain measurements of the **PSV** and **ESV**, respectively.

28. LONG AXIS: Internal Carotid Artery Distal

29. LONG AXIS: Internal Carotid Artery Distal

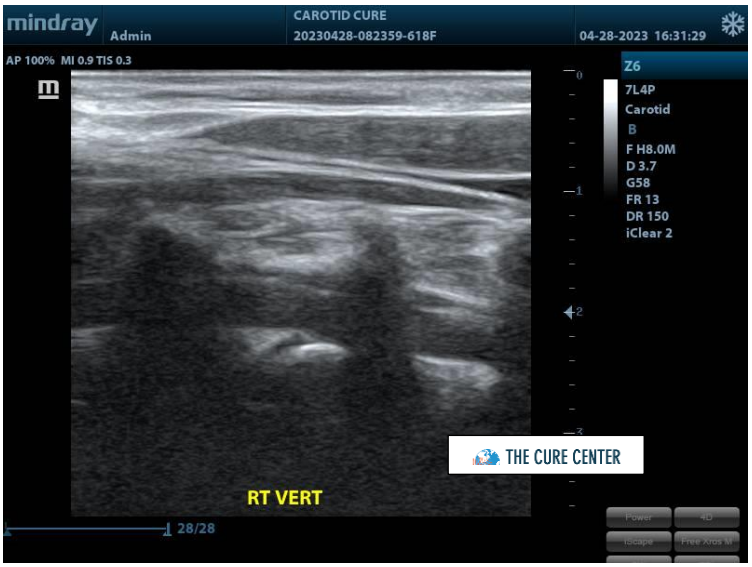

30. LONG AXIS: Internal Carotid Artery Distal

NOTE: Be sure to **angle** your sample gate to **60 degrees** for spectral Doppler images.

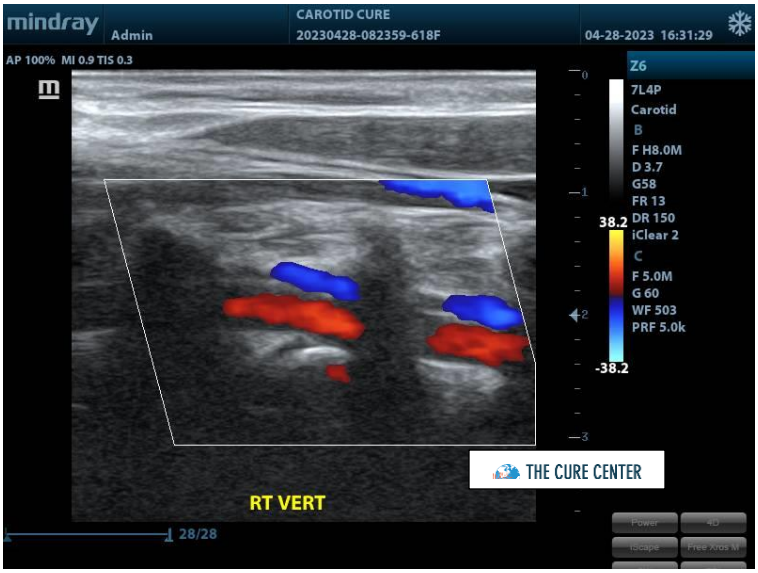

Remember to obtain measurements of the **PSV** and **ESV**, respectively.

31. LONG AXIS: Right Vertebral Artery

32. LONG AXIS: Right Vertebral Artery

33. LONG AXIS: Right Vertebral Artery

NOTE: Be sure to **angle** your sample gate to **<u>60 degrees</u>** for spectral Doppler images.

Remember to obtain measurements of the **PSV** and **ESV**, respectively.
