Kidney Doppler Protocol

RT KIDNEY

1. RT KD SAG – Grayscale

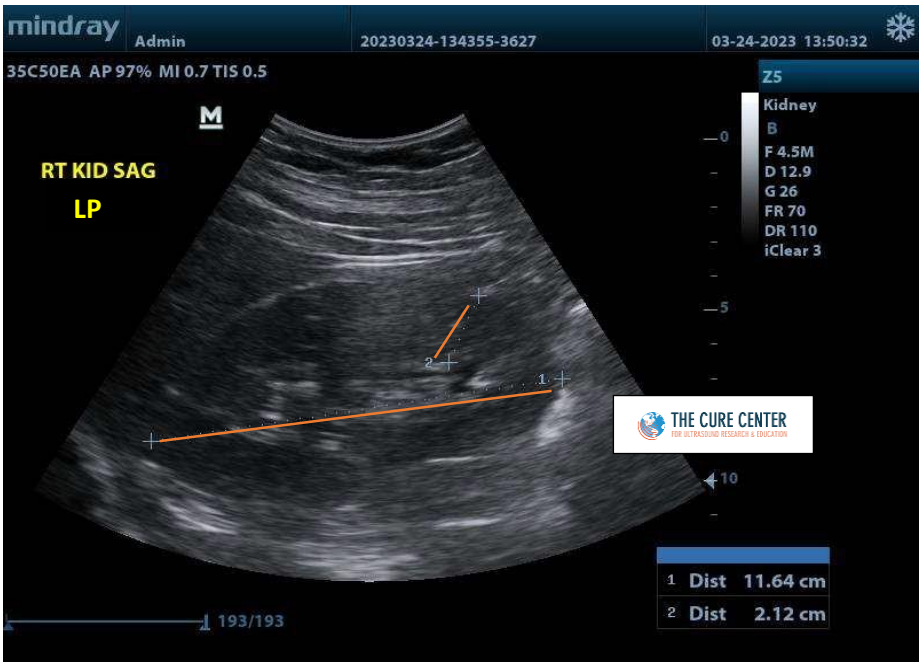

2. RT KD SAG – Measurement 1/ Cortex/ LP

- ✓ **In 1 image measure 1x <u>Length</u> from <u>UP</u> to <u>LP.</u>**

and

- ✓ **Measure 1x the <u>Cortex LP.</u>**

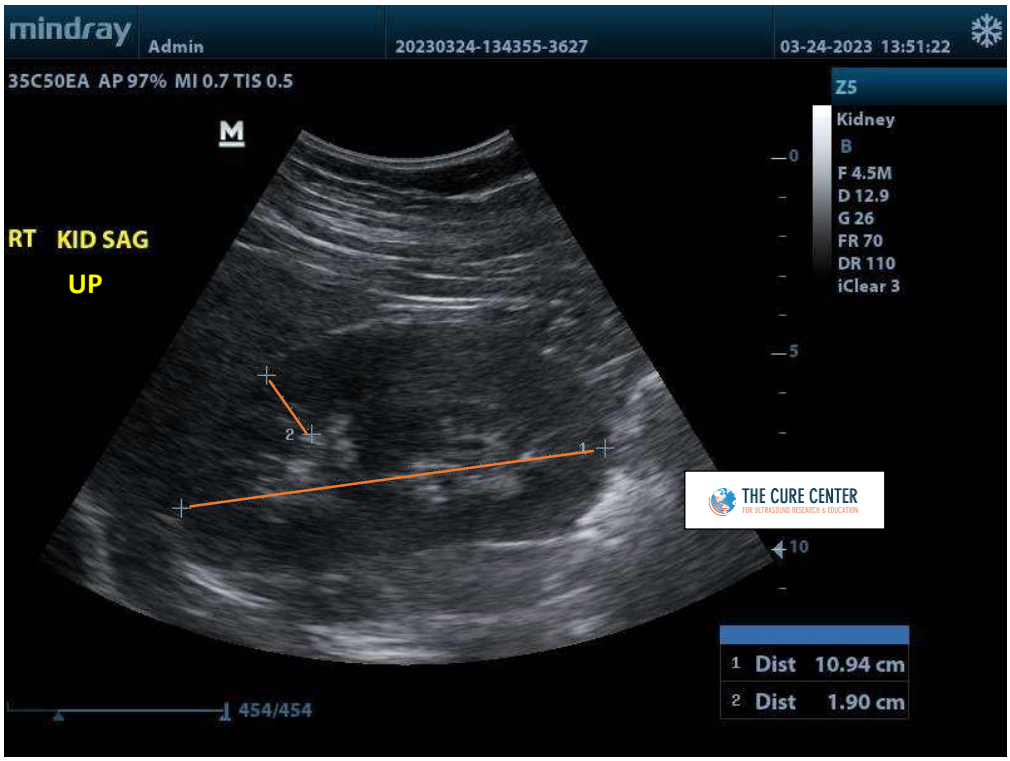

3. RT KD SAG – Measurement 2/ Cortex/ UP

- ✓ **In 1 image measure 1x <u>Length</u> from <u>UP</u> to <u>LP.</u>**

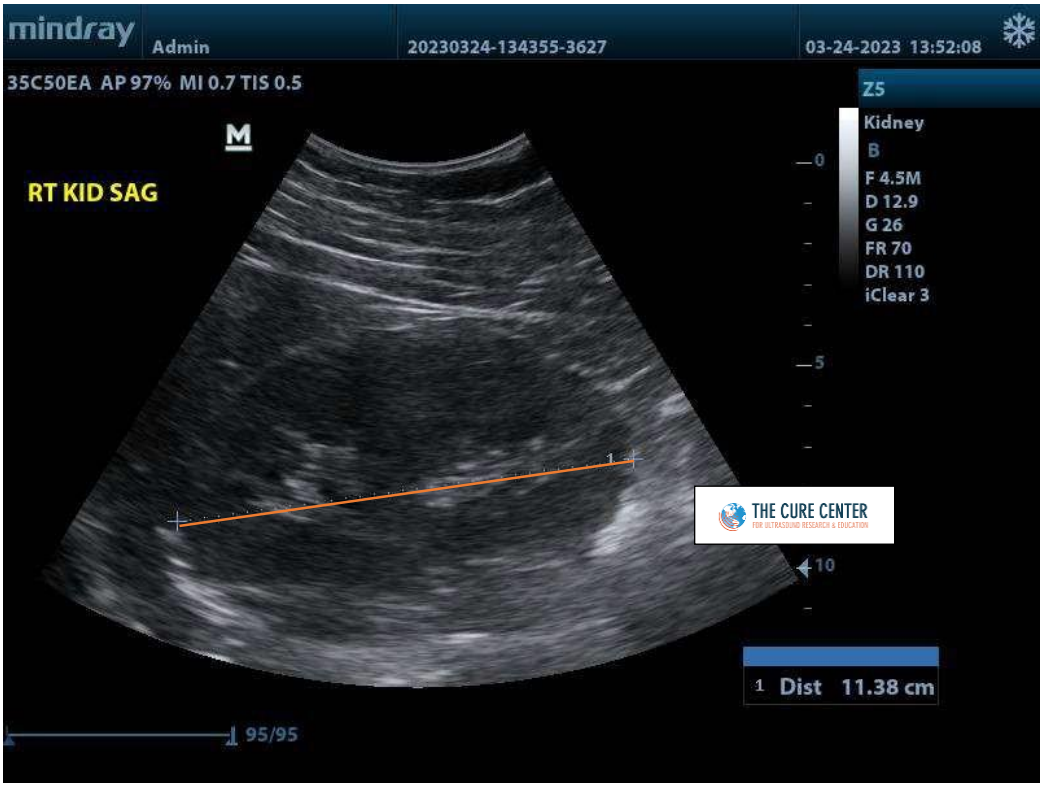

and

- ✓ **Measure 1x the <u>Cortex UP.</u>**

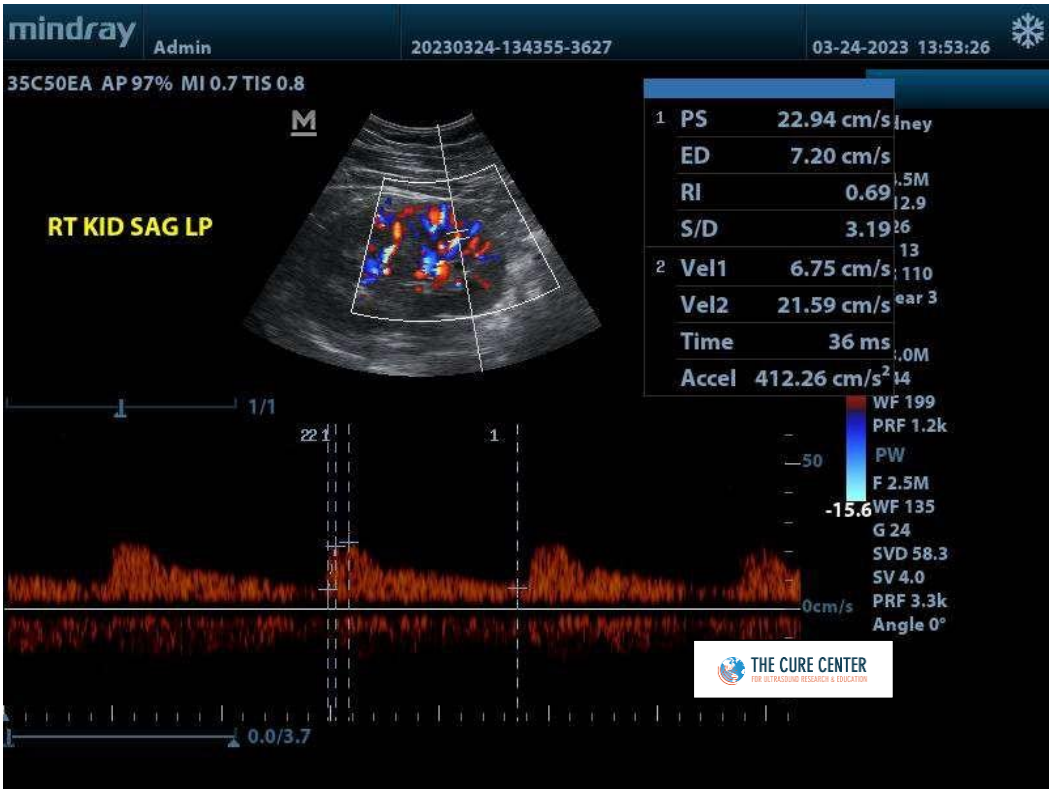

4. RT KD SAG – Measurement 3

- ✓ **In 1 image measure 1x <u>Length</u> from <u>UP</u> to <u>LP</u> ONLY.**

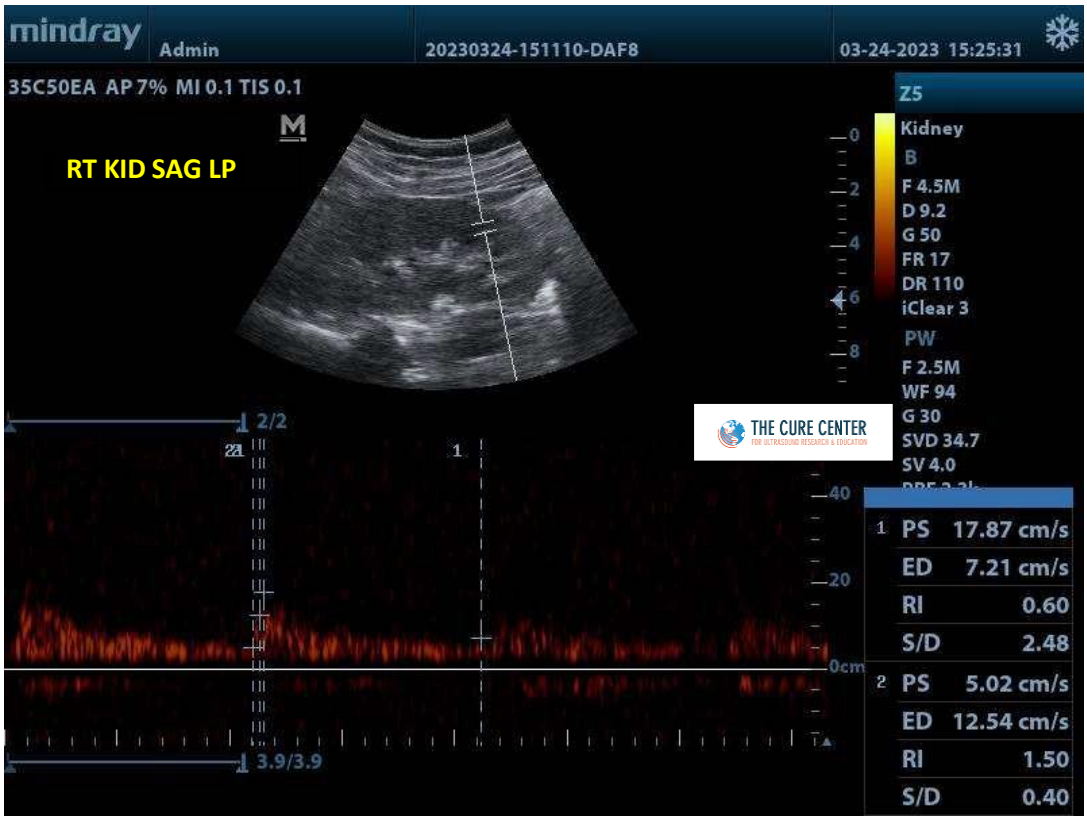

5. RT KD SAG – Interlobar Arteries PW/ LP

- ✓ **Trace Peak Systolic Velocity (PSV) to End Diastolic Velocity (EDV) waveforms.**
- ✓ **Trace Acceleration Time to the first peak you see.**

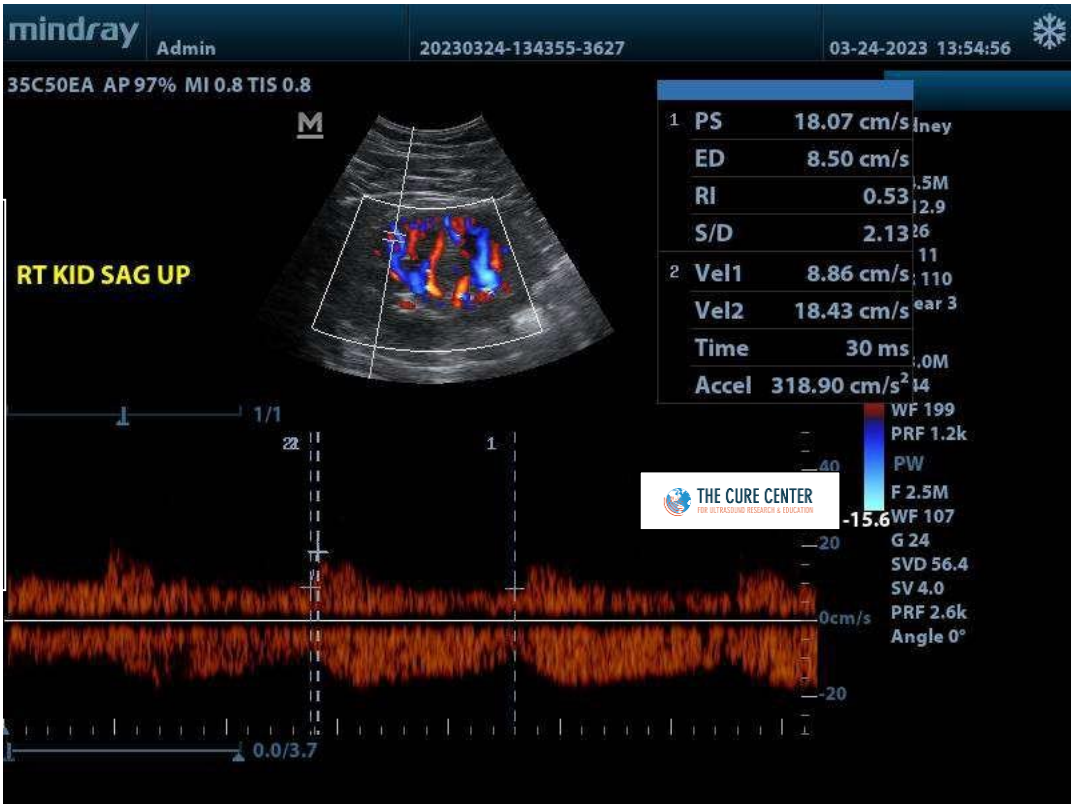

6. RT KD SAG – Interlobar Arteries PW/ LP

- ✓ **NO COLOR to see the placement of your Doppler.**

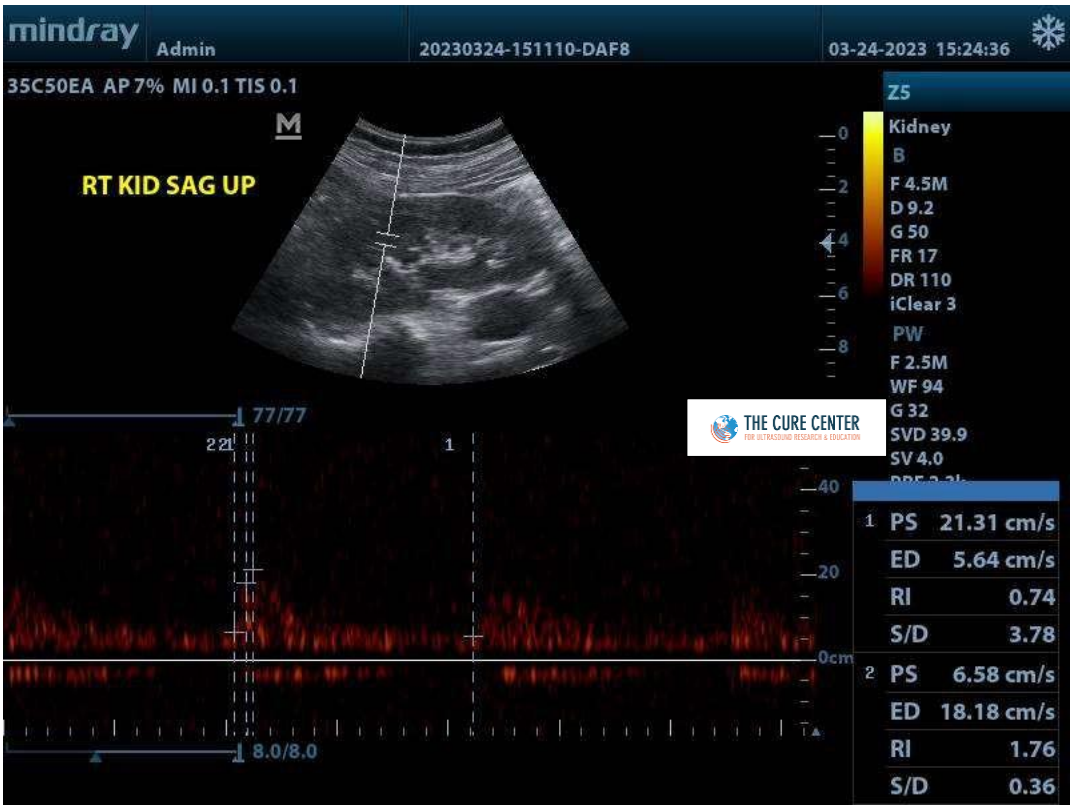

7. RT KD SAG – Interlobar Arteries PW/ UP

- ✓ **Trace Peak Systolic Velocity (PSV) to End Diastolic Velocity (EDV) waveforms.**
- ✓ **Trace Acceleration Time to the first peak you see.**

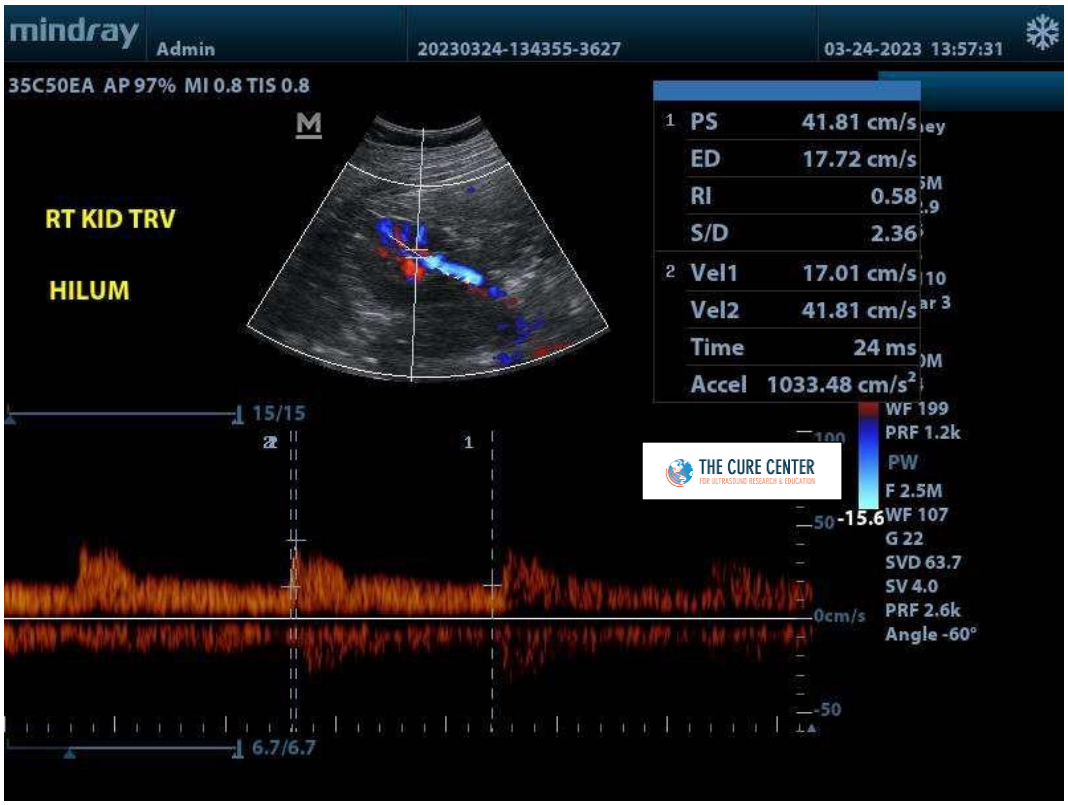

8. RT KD SAG – Interlobar Arteries PW/ UP Grayscale

- ✓ **NO COLOR to see the placement of your Doppler.**

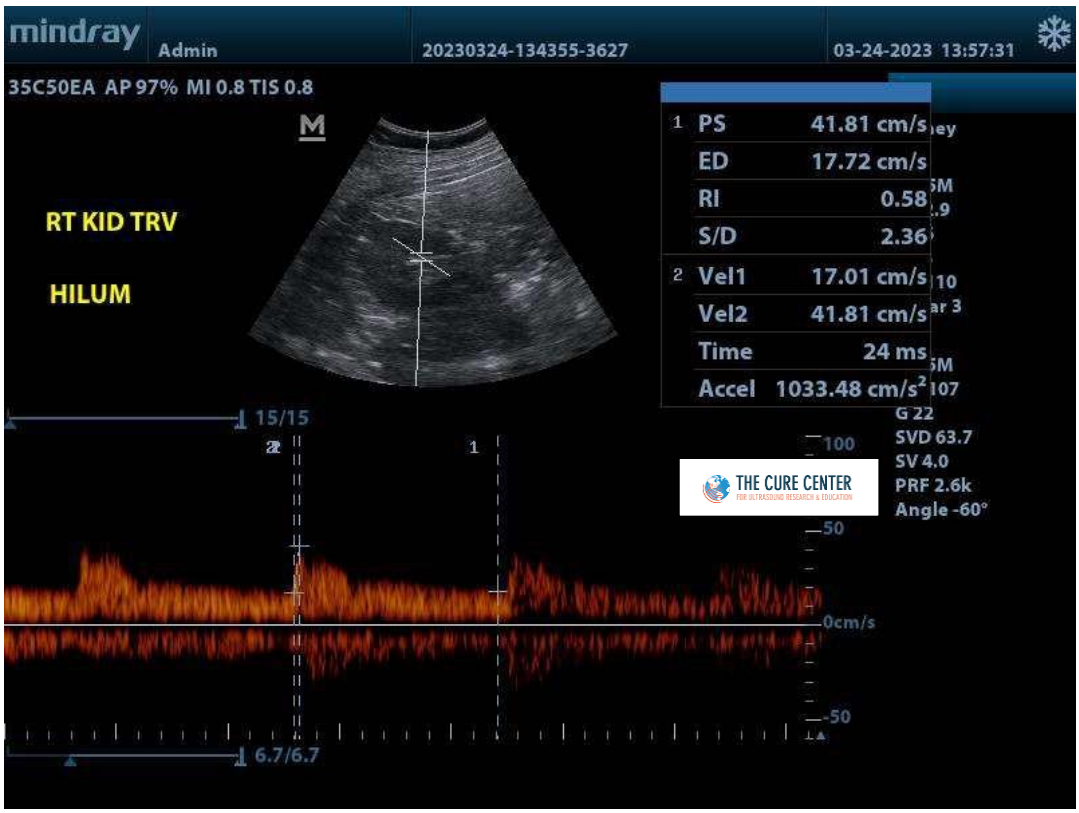

9. RT KD TRV – RRA Hilum PW

- ✓ **Place Doppler <u>inside</u> the <u>kidney</u>.**
- ✓ **Trace Peak Systolic Velocity (PSV) to End Diastolic Velocity (EDV) waveforms.**
- ✓ **Trace Acceleration Time to the first peak you see.**

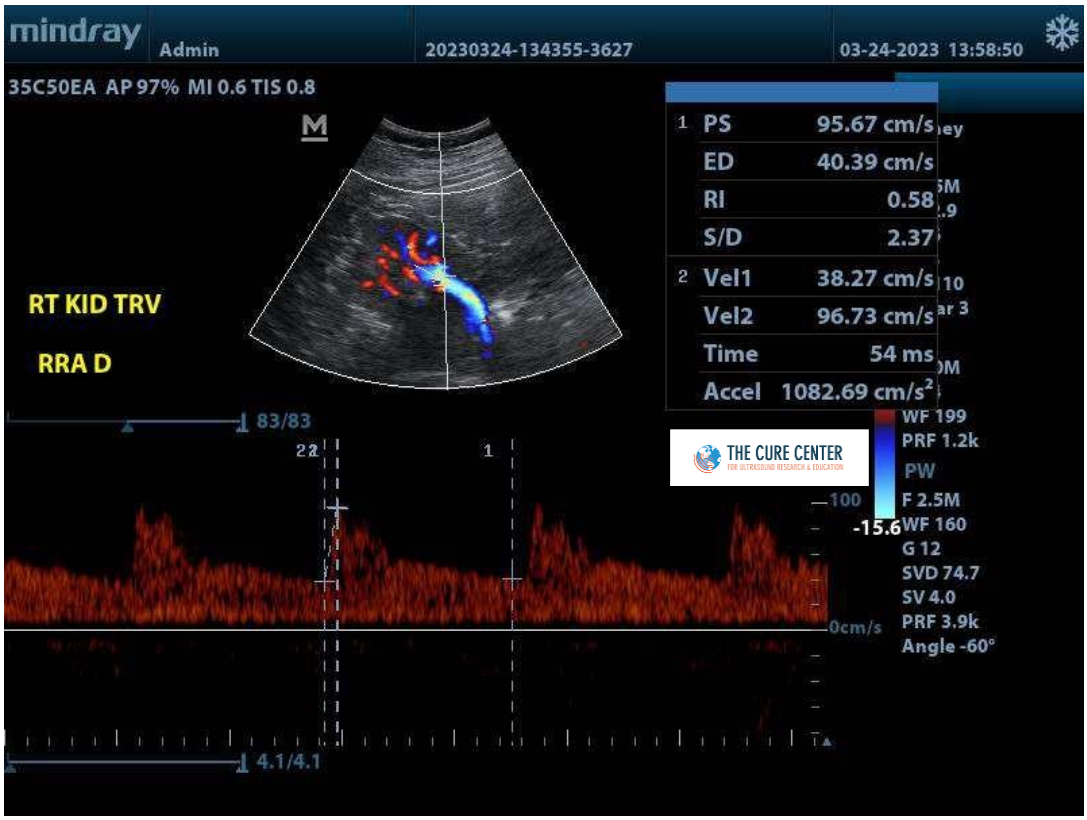

10. RT KD TRV – RRA Hilum PW Grayscale

- ✓ **NO COLOR to see the placement of your Doppler.**

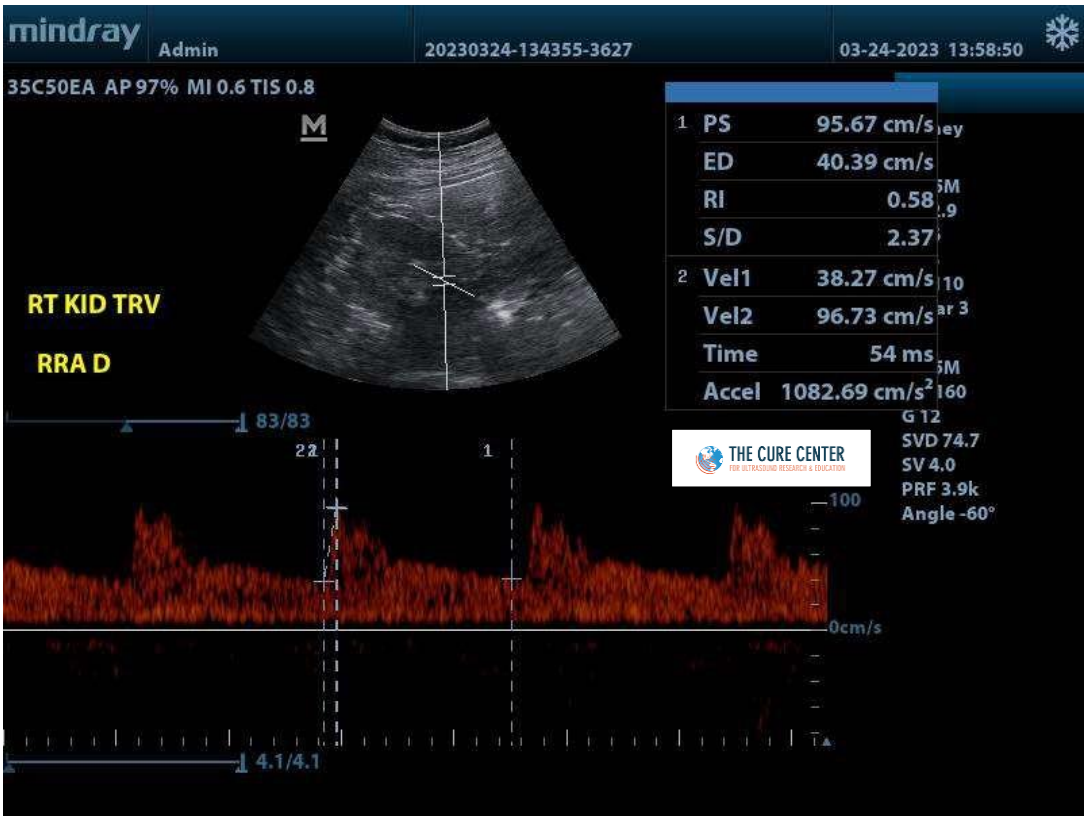

11. RT KD TRV – RRA Distal PW

- ✓ **Place Doppler <u>outside</u> the Kidney, at the Distal <u>RRA.</u>**
- ✓ **Trace Peak Systolic Velocity (PSV) to End Diastolic Velocity (EDV) waveforms.**
- ✓ **Trace Acceleration Time to the first peak you see.**

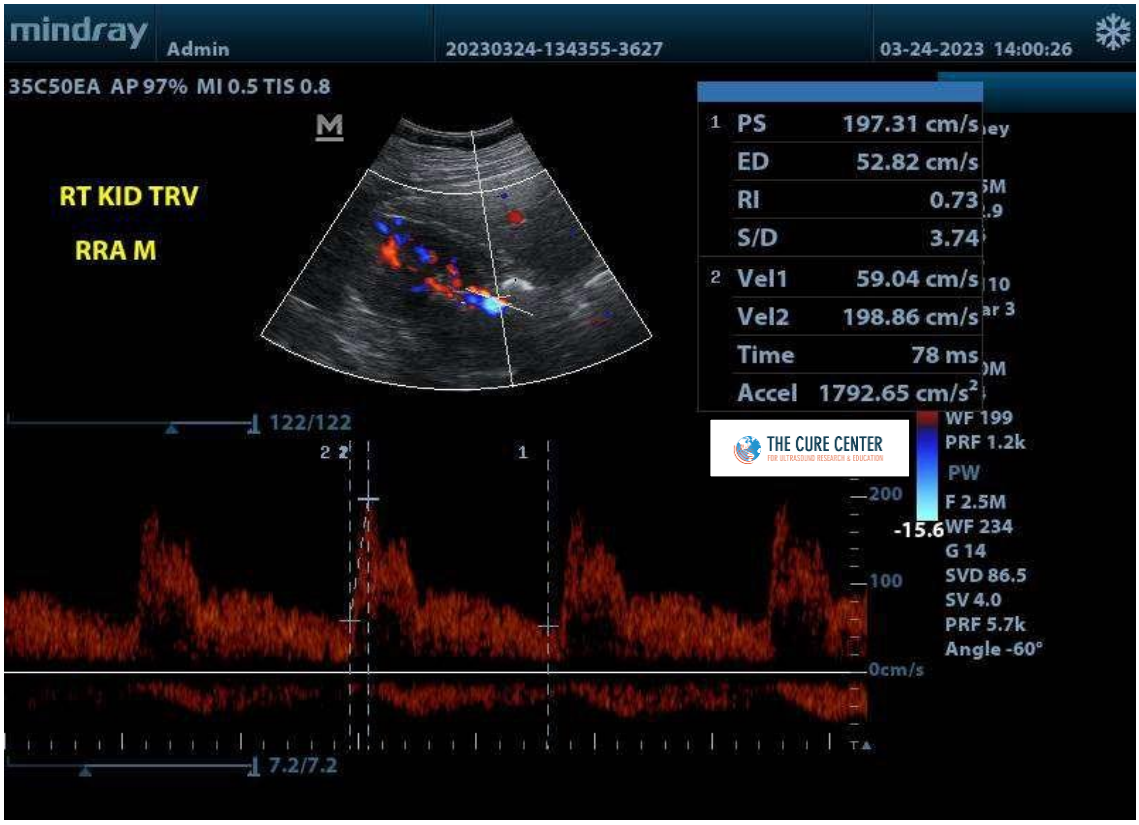

12. RT KD TRV – RRA Distal PW Grayscale

- ✓ **NO COLOR to see the placement of your Doppler.**

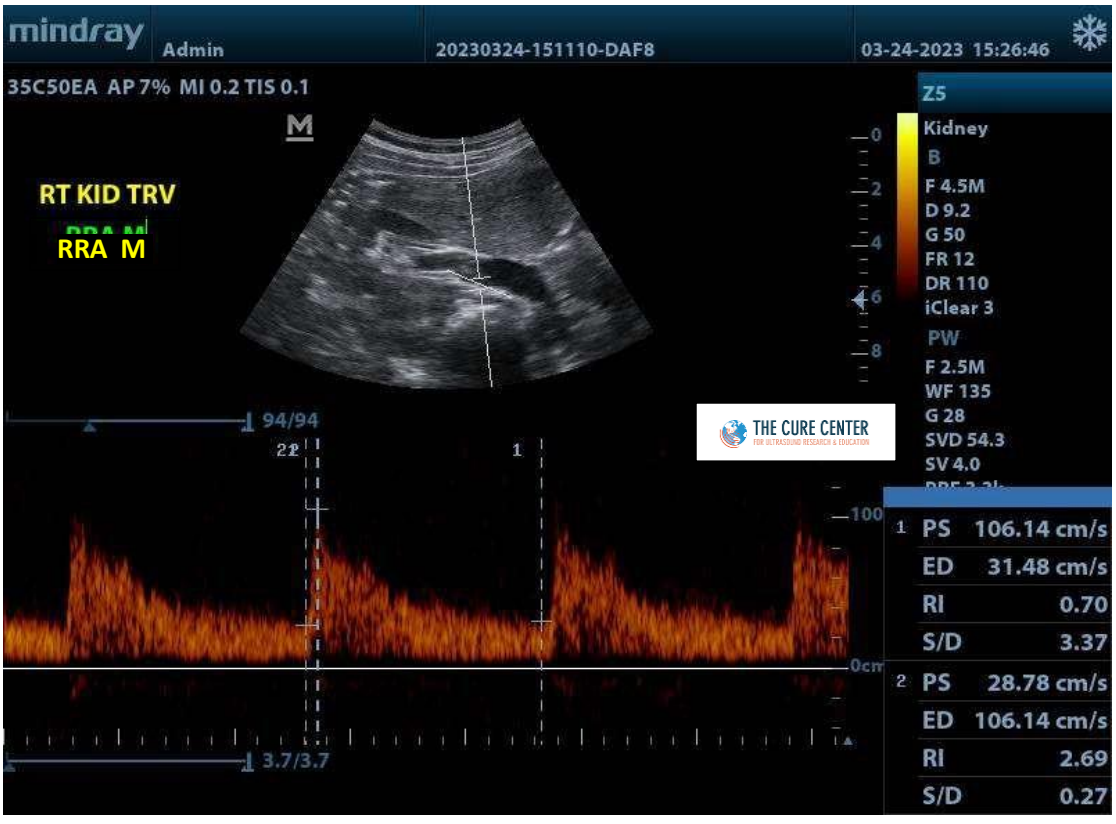

13. RT KD TRV – RRA Mid PW

- ✓ **Place Doppler <u>between</u> Distal and Proximal <u>RRA</u>.**
- ✓ **Trace Peak Systolic Velocity (PSV) to End Diastolic Velocity (EDV) waveforms.**
- ✓ **Trace Acceleration Time to the first peak you see.**

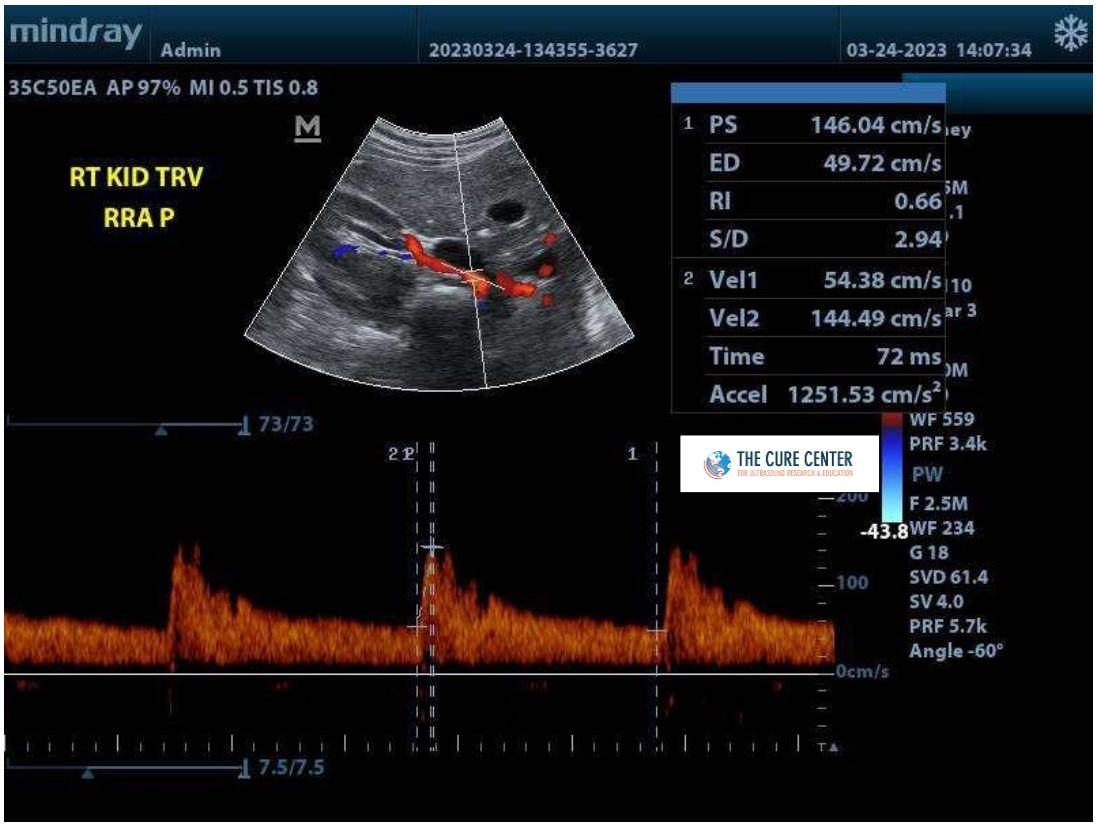

14. RT KD TRV – RRA Mid PW Grayscale

- ✓ **NO COLOR to see the placement of your Doppler.**

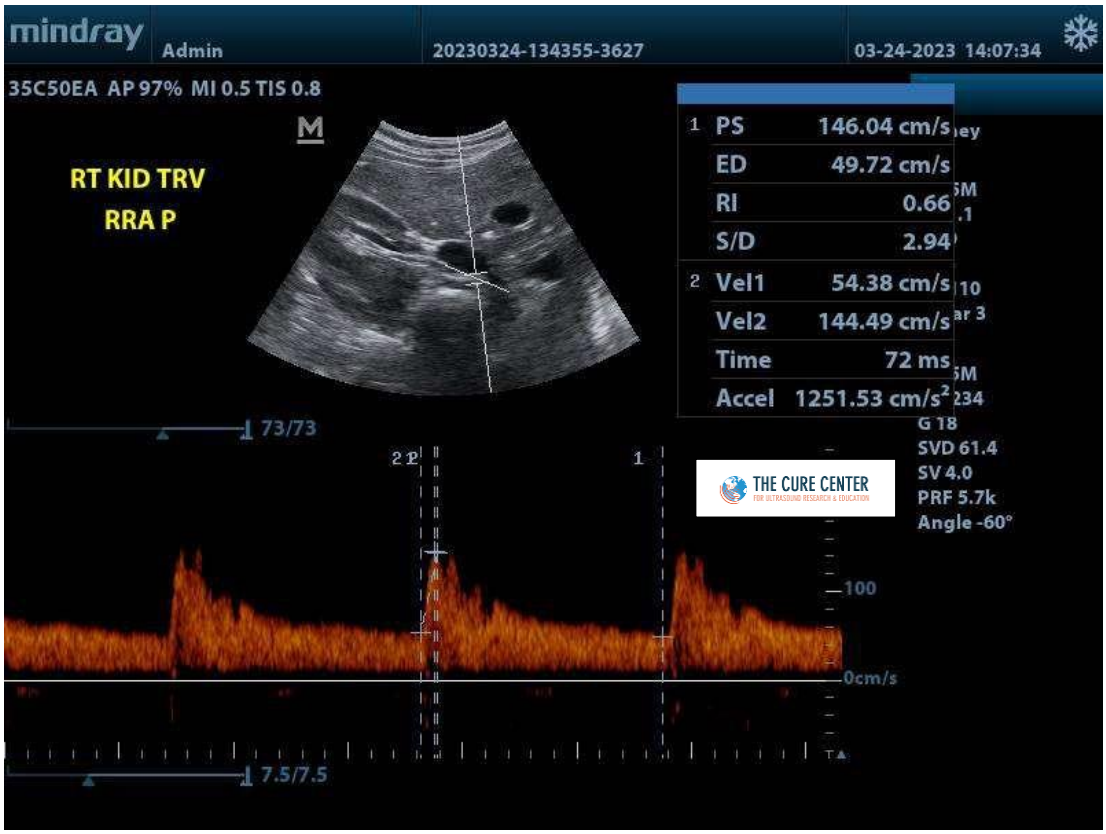

15. RT KD TRV – RRA Prox PW

- ✓ **Place Doppler on the Proximal RRA, <u>closest to the Aorta</u>. But <u>not</u> at the Aorta.**
- ✓ **Trace Peak Systolic Velocity (PSV) to End Diastolic Velocity (EDV) waveforms.**
- ✓ **Trace Acceleration Time to the first peak you see.**

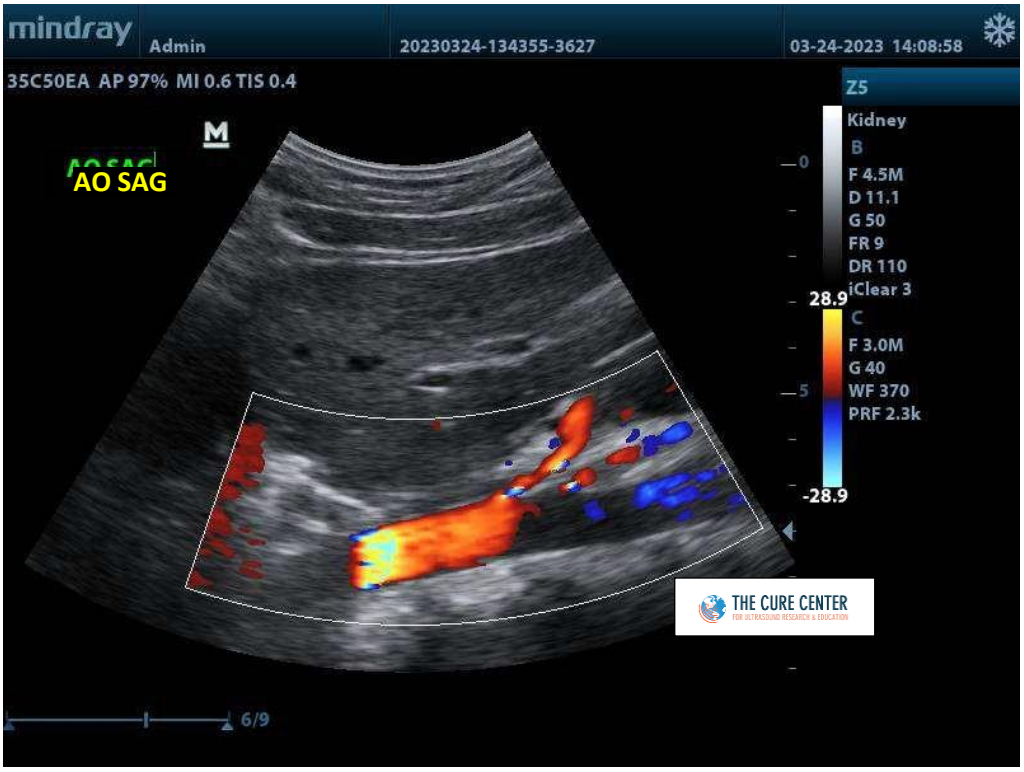

16. RT KD TRV – RRA Prox PW Grayscale

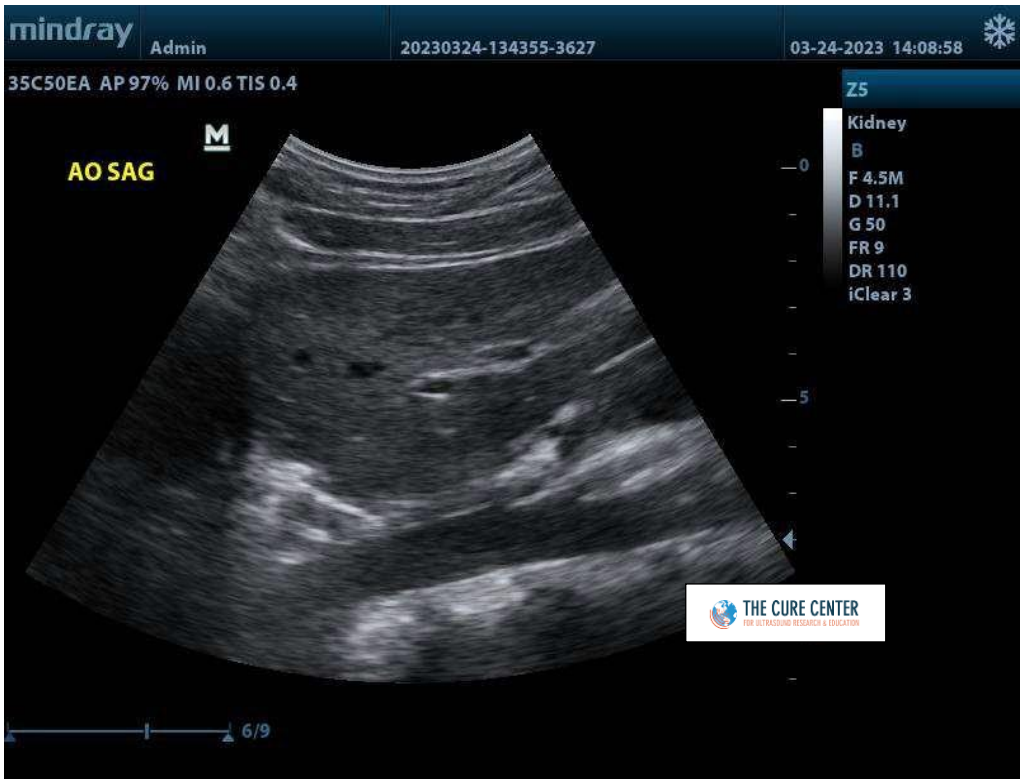

- ✓ **NO COLOR to see the placement of your Doppler.**

17. RT KD SAG Color – AO Prox Color

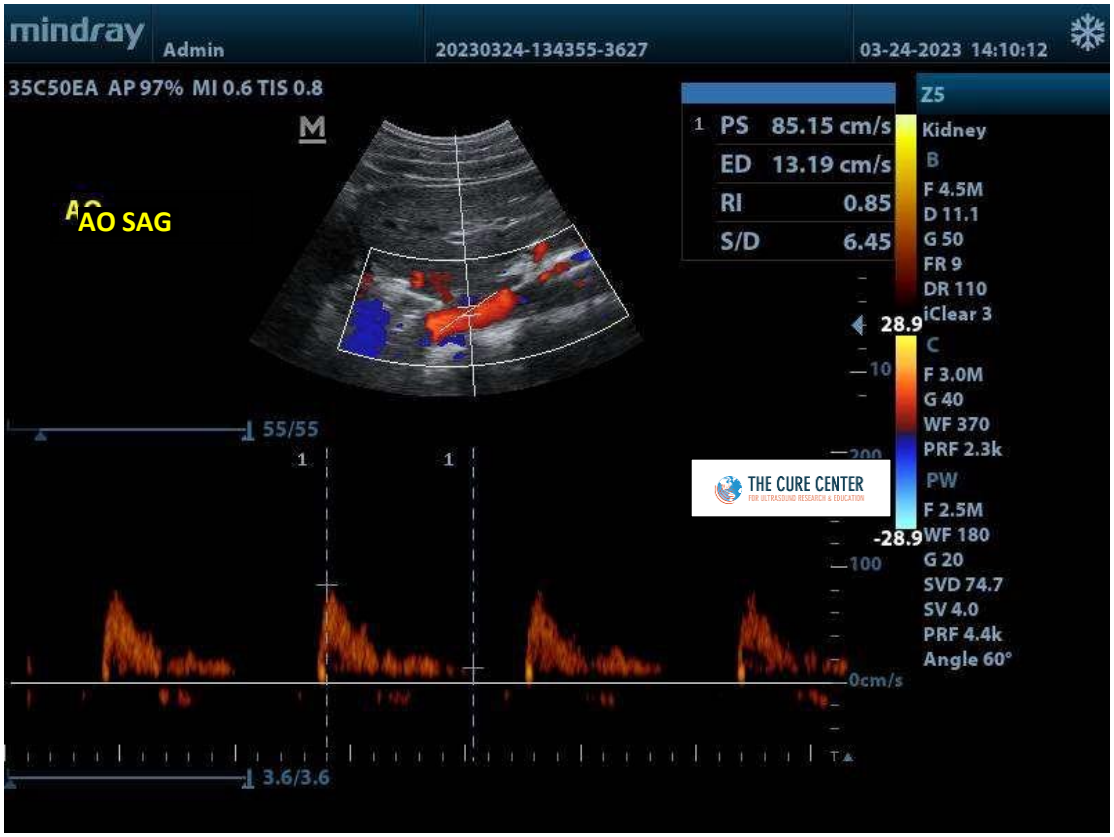

18. RT KD SAG – AO Prox Grayscale

- ✓ **NO COLOR.**

19. RT KD SAG – AO Prox PW

- ✓ **Trace Peak Systole (PS) to End Diastole (ED) waveform ONLY.**

Note: Distal RRA is Closest to the Kidney, and Proximal RRA is closest to the Aorta. Mid RRA is in between.
