INTRODUCTION TO ANATOMY AND PHYSIOLOGY 100 DMS PROGRAM

COURSE CODE: BIO 100

INTRO TO ANATOMY & PHYSIOLOGY

Instructor:
Telephone:
E-Mail:
Office Hours:
Mon, Wed, Fri: 12pm to 1pm & 5pm to 6pm
Tues: 9am – 5pm
Thurs: 11am – 5pm

Start Date:

Completion Date:

Days and Times:
Monday, Wednesday and Friday

Course Hours:
Morning Session:
8:00 am -10:00am &
10:10am – 12:00 pm
Afternoon Sessions:
1:00pm – 3:00pm &
3:10 pm – 5:00 pm

Class Location:
Classroom #:
Lab#:

Course Contact Hours: 16
Course Length: 2 days
Quarter Credit Hours:
Lecture: 16
Laboratory: 0
Externship: None
Course Delivery: Residential
Pre-requisite: None

Americans with Disabilities Act Guidelines: Requests for accommodations should be submitted to the campus president. Faculty are not authorized to grant accommodations.

COURSE DESCRIPTION

This is an introductory level course directed towards developing the principles, techniques, knowledge and skills of each student necessary to function as a qualified diagnostic medical sonographer.

This course will introduce students to physiology and anatomy of the human body. Student will learn different Structures of the human body, including cells, tissues, organs and system including their function.

Human anatomy cross-sectional planes will be learned (long axis, transverse, coronal and oblique planes).

Course Objectives

Upon the successful completion of this courses the student should be able to:

- Develop an understanding of the human body normal functions as a whole.
- Understand normal human anatomy and physiology.
- Describe cells, tissues, organ and system and they function in the human body.
- Identify human anatomy representation in a variety of orthogonal planes and illustrate anatomical structures with correct spatial orientation.
- Understand Human anatomy cross-sectional planes (long axis, transverse, coronal and oblique planes).
- Pass the didactic course with a minimum passing grade of 73.

Instructional Resources

Textbook

Title: Anatomy & Physiology Essentials by Susan J. Hall, Michelle A. Provost-Craig, William C. Rose
Publisher: The Goodheart-Willcox Company, Inc.
ISBN: 978-1-63563-574-4

Title: Atlas of Human Anatomy by Frank H. Netter.
Edition 7th
ISBN: 978-0323393225
Publisher Philadelphia, PA: Elsevier 2019.

Notebook

INTRODUCTION TO ANATOMY AND PHYSIOLOGY 100 DMS PROGRAM

Grade Point Value

Grade	Percentile Range	Points
A+	97-100	4.00
A	93-96.99	3.85
A-	90. -92.99	3.67
B+	87-89.99	3.33
B	83-86.99	3.00
B-	80-82.99	2.67
C+	77-79.99	2.33
C	73-76.99	2.00
C-	70-72.99	1.67
D+	67-69.99	1.33
D	63-66.99	1.00
D-	60-62.99	.67
F	Below 60-00	0

Methods of Evaluation

Attendance	15%
Participation	15%
Quizzes	30%
Exams	40%
	100%

Teaching Strategies

Lecture/Discussion/Q & A's
Online Simulation
Laboratory Demonstration
Audiovisual
Role Play

Methods of Delivery

Residential

Classroom Policy

Our goal is to build a respectful learning and work environment that allows for positive communication and teamwork. To support your development, all students must abide by academic policies related to attendance, behavior and professional conduct as published in the current institutional catalog. Special attention is granted to the following items:

- There is to be no eating or drinking in any lab/computer class.
- There is to be no eating in ANY class.
- Cellular phones may only be used during class if/when advised by the instructor and required for a learning activity.
- All students must be in full uniform which includes white shoes at **ALL TIMES.**
- **There are no rescheduled exams *unless specified by the professor* with advance notification.**
- The determination to accept late homework assignments is made only by the instructor and occurs only in the event of extraordinary circumstances. If the professor does allow for an extension on assignments, there will be an automatic daily reduction by 10 points, each day beyond the original due date.

- All classes are expected to start and end at a predetermined start and end time.

Accommodations for Students with Disabilities

If you have a special learning need, please contact the Program Director. The Program Director and the Campus President will work with the student to identify reasonable accommodations/adjustments necessary to enable him or her to fully participate in the educational processes.

Professional Responsibility

Students are expected to aspire to the same high level of ethics and professionalism that is demanded of registered medical assistants. This requires students to conduct themselves as professionals and to fully engage in the learning process by preparing for and participating in all classroom, laboratory and clinical activities.

Attendance Policy

- Routine, regular class attendance is a requirement for this course.
- Promptness and dependability are the soft skills that garner special attention.

Attendance Rubric:

- Up to 25% will be deducted for each hour missed or for any part thereof (5% for each 10 minutes missed).
- Students are required to meet their professor to discuss matters of tardiness or absence.
- Students are required to notify their instructor via E mail or voicemail to communicate an absence or lateness from class.

Attendance is taken daily in class by the instructor and turned over to the Registrar before the end of the class day. Early departures, tardiest, and class cuts will be recorded in quarter-hour increments and a proportional grade reduction will also be applied. A period of less than 15 minutes will be counted as a quarter-hour of absence. Attendance records are maintained by the Registrar as part of the student's permanent academic record.

INTRODUCTION TO ANATOMY AND PHYSIOLOGY 100 DMS PROGRAM

COURSE OUTLINE

Below is the course schedule which identifies lecture topics, assignments and other course activities and the homework required for completion each week.

The course syllabus is a general plan for the course; deviations may be necessary and will be announced.

DAYS	LECTURE TOPICS	IN CLASS ACTIVITY	ASSIGNMENTS
DAY 1	**Lesson 1**: *Foundations of Human Anatomy & Physiology* Anatomy and physiology defined, Levels of structural organization, Homeostasis, Anatomical position, Regional names, Directional terms, Planes and sections, Body cavities, Abdominopelvic regions and quadrants **Lesson 4**: Body *Tissues* Types of tissues, Epithelial tissue, Connective tissue **Lesson 5**: Membranes and the *Integumentary System* Skin, Epidermal derivatives, Homeostasis of body temperature	Lecture/Discussion/Q & A's POWER POINTS ANATOMICAL MODELS Lecture/Discussion/Q & A's POWER POINTS ANATOMICAL MODELS Lecture/Discussion/Q & A's POWER POINTS ANATOMICAL MODELS	Chapter 1 Pages 2-31 Homework Thinking Critically Q 26 Page 31 Quiz Chapter 4 Pages 85-107 HomeWork Thinking Critically Q 44 page 107 Quiz Chapter 5 - pages 108-153 Homework Clinical Case Study Q 37 Page 153 Quiz

INTRODUCTION TO ANATOMY AND PHYSIOLOGY 100 DMS PROGRAM

DAYS	LECTURE TOPICS	IN CLASS ACTIVITY	ASSIGNMENTS
DAY 2	**Lesson 6**: *Skeletal System* Bone Tissue Structure and functions of bone tissue, Histology of bone tissue, Ossification, Bone growth, Bone homeostasis, Fractures, Exercise and bone tissue **Lesson 7**: *Muscular System* Types of muscular tissue, Functions of muscular tissue, Characteristics of muscular tissue Muscular System How skeletal muscles produce movements, Naming skeletal muscles	Lecture/Discussion/Q & A's POWER POINTS ANATOMICAL MODELS Lecture/Discussion/Q & A's POWER POINTS ANATOMICAL MODELS REVIEW/FINAL EXAM	Chapter 6 Pages 154- 190 Homework Thinking Critically Q 34 Pg. 190 Quiz Chapter 7 Pages 154- 190 Homework Thinking Critically Q 34 Pg. 190 Quiz
