Lab#:

Course Contact Hours: 16
Course Length : 2 days
Quarter Credit Hours:
Lecture: 16
Laboratory: 0
Externship: None

Course Delivery: Residential
Pre-requisite: None

Americans with Disabilities Act Guidelines: Requests for accommodations should be submitted to the campus president. Faculty are not authorized to grant accommodations.

COURSE DESCRIPTION

This is an introductory level course directed towards developing the principles, techniques, knowledge and skills of each student necessary to function as a qualified diagnostic medical sonographer.

This course will introduce the student to the notion of Professionalism and Ethic Codes.

Student will learn SDMS Code of ethics for the profession of diagnostic medical sonography and its scope of practice for the promotion of patient well-being, the promotion of the highest level of competent practice and the promotion of professional integrity and public trust.

Student will learn the HIPAA regulations, components, risks and responsibilities associated with healthcare employment.
This course will also entail legal issues in DMS including patient rights, patient responsibilities, legal concerns, use of restraint, unusual occurrence report, good samaritan laws, informed consent, malpractice insurance, medical records and documentation and special issues with the OB/GYN patient.

Various professional credentialing modalities will be identified and clearly learned.

Residential

COURSE OBJECTIVES

Upon the successful completion of this courses the student should be able to

- Recognize and review the specifics of a sonographer role as members of the healthcare team.
- Understand how the field of diagnostic medical sonography is defined and how they will fit into that definition during their career in diagnostic ultrasound.
- Learn the scope of practice of a diagnostic medical sonographer and how that is established through professional credentialing.
- Understand and learn the duties and responsibilities of the diagnostic medical sonography professional.
- Understand how the patient information, assessment and evaluation fit into the objectives for the practice standards of clinical diagnostic sonography.
- Understand the Code of ethics for the profession of DMS standards set by the SDMS.
- Discuss the ethical issues and behavior surrounding the principals of practice competency.
- Identify the endorsement of the various professional societies stated by the SDMS.

- Define, understand the requirements of HIPPA regulations, risks and responsibilities.
- Be able to identify and learn legal issues specific to healthcare employees.
- Pass the didactic course with a minimum passing grade of 73.

Classroom Policy

Our goal is to build a respectful learning and work environment that allows for positive communication and teamwork. To support your development, all students must abide by academic policies related to attendance, behavior and professional conduct as published in the current institutional catalog. Special attention is granted to the following items:

- There is to be no eating or drinking in any lab/computer class.
- There is to be no eating in ANY class.
- Cellular phones may only be used during class if/when advised by the instructor and required for a learning activity.
- All students must be in full uniform which includes white shoes at **ALL TIMES.**
- **There are no rescheduled exams *unless specified by the professor* with advance notification.**
- The determination to accept late homework assignments is made only by the instructor and occurs only in the event of extraordinary circumstances. If the professor does allow for an extension on assignments, there will be an automatic daily reduction by 10 points, each day beyond the original due date.
- All classes are expected to start and end at a predetermined start and end time.

Accommodations for Students with Disabilities

If you have a special learning need, please contact the Program Director. The Program Director and the Campus President will work with the student to identify reasonable accommodations/adjustments necessary to enable him or her to fully participate in the educational processes.

Professional Responsibility

Students are expected to aspire to the same high level of ethics and professionalism that is demanded of registered medical assistants. This requires students to conduct themselves as professionals and to fully engage in the learning process by preparing for and participating in all classroom, laboratory and clinical activities.

Attendance Policy

- Routine, regular class attendance is a requirement for this course.
- Promptness and dependability are the soft skills that garner special attention.

Attendance Rubric:

- Up to 25% will be deducted for each hour missed or for any part thereof (5% for each 10 minutes missed).
- Students are required to meet their professor to discuss matters of tardiness or absence.
- Students are required to notify their instructor via E mail or voicemail to communicate an absence or lateness from class.

Attendance is taken daily in class by the instructor and turned over to the Registrar before the end of the class day. Early departures, tardiest, and class cuts will be recorded in quarter-hour increments and a proportional grade reduction will also be applied. A period of less than 15 minutes will be counted as a quarter-hour of absence. Attendance records are maintained by the Registrar as part of the student's permanent academic record.
