MEDICAL TERMINOLOGY 100 CURE DMS PROGRAM

COURSE DESCRIPTION

This is an introductory level course directed towards developing the principles, techniques, knowledge and skills of each student necessary to function as a qualified diagnostic medical sonographer in the everyday practice and application of vascular sonography.

This course is designed to introduce basic medical terminology for students necessary for establishing a career in healthcare.
It will teach the student to analyze a medical term by dividing medical words into their component parts.

Student will learn acronyms, eponyms, homonyms and frequently used in diagnostic medical sonography.

Student will learn the meaning of basic prefixes and suffixes and the combining form, used in the medical and healthcare field.

They will also learn how to use these combining forms, prefixes and suffixes to build medical words and develop the language required to communicate effectively in the medical setting.
Word structure, acronyms, eponyms, homonyms, frequently misspelled words and common medical terminology specific to different areas of ultrasound will be studied.

COURSE OBJECTIVES

- Upon the successful completion of this courses the student should be able to:
- Analyze medical terminology by dividing them into their component parts.
- Understand the meaning of each medical terminology used in DMS.
- Understanding and explain complex medical terminology.
- Demonstrate the ability to break down medical terms into separate components stem and root.
- Be aware of spelling, pronunciation, and misusage of medical terminology.
- Define basic and common suffixes and basic prefixes used in the medical terminology.
- Understand and use these combining forms, prefixes, and suffixes to build medical words and develop the language required to communicate effectively in the medical and healthcare setting.
- Effectively communicate with instructors, patients, departmental staff, physicians and all other health care professionals.
- Pass the didactic course with a minimum passing grade of 73.

Classroom Policy

Our goal is to build a respectful learning and work environment that allows for positive communication and teamwork. To support your development, all students must abide by academic policies related to

attendance, behavior and professional conduct as published in the current institutional catalog. Special attention is granted to the following items:

- There is to be no eating or drinking in any lab/computer class.
- There is to be no eating in ANY class.
- Cellular phones may only be used during class if/when advised by the instructor and required for a learning activity.
- All students must be in full uniform which includes white shoes at **ALL TIMES.**
- **There are no rescheduled exams *unless specified by the professor* with advance notification.**
- The determination to accept late homework assignments is made only by the instructor and occurs only in the event of extraordinary circumstances. If the professor does allow for an extension on assignments, there will be an automatic daily reduction by 10 points, each day beyond the original due date.
- All classes are expected to start and end at a predetermined start and end time.

Accommodations for Students with Disabilities

If you have a special learning need, please contact the Program Director. The Program Director and the Campus President will work with the student to identify reasonable accommodations/adjustments necessary to enable him or her to fully participate in the educational processes.

Professional Responsibility

Students are expected to aspire to the same high level of ethics and professionalism that is demanded of registered medical assistants. This requires students to conduct themselves as professionals and to fully engage in the learning process by preparing for and participating in all classroom, laboratory and clinical activities.

Attendance Policy

- Routine, regular class attendance is a requirement for this course.
- Promptness and dependability are the soft skills that garner special attention.

Attendance Rubric:

- Up to 25% will be deducted for each hour missed or for any part thereof (5% for each 10 minutes missed).
- Students are required to meet their professor to discuss matters of tardiness or absence.
- Students are required to notify their instructor via E mail or voicemail to communicate an absence or lateness from class.

Attendance is taken daily in class by the instructor and turned over to the Registrar before the end of the class day. Early departures, tardiest, and class cuts will be recorded in quarter-hour increments and a proportional grade reduction will also be applied. A period of less than 15 minutes will be counted as a quarter-hour of absence. Attendance records are maintained by the Registrar as part of the student's permanent academic record.

MEDICAL TERMINOLOGY 100 CURE DMS PROGRAM

COURSE OUTLINE

Below is the course schedule which identifies lecture topics, assignments and other course activities and the homework required for completion each week.

The course syllabus is a general plan for the course; deviations may be necessary and will be announced.

Lecture Topic	In-Class Activity/Lab Assignment	Homework/Out of Class
Week One Objectives: Analyze medical terminology by dividing them into their component parts. Understand the meaning of each medical terminology used in DMS. Understanding and explain complex medical terminology. Demonstrate the ability to break down medical terms into separate components stem and root. Be aware of spelling, pronunciation and misusage of medical terminology. Define basic and common suffixes and basic prefixes used in the medical terminology. Understand and use these combining forms, prefixes and suffixes to build medical words and develop the language required to communicate effectively in the medical and healthcare setting.		
DAY 1. **Introduction to Medical Terminology** Concepts of Medical Terminology Suffixes Prefixes Cells, Tissues, and Organs Body Structure **PART II Disease and Treatment Disease** Diagnosis and Treatment; Surgery Drugs Appendix 1-8: Symbols/ Abbreviations and Their Meanings/ Word Parts and Their Meanings / Meanings and Their Corresponding Word/Word Roots Metric Measurements.
